## **2010-11 SCHOOL SUMMARY**

- Student percentages are computed as the percentage of total student enrollment.
- Additional statistics are available in ENROLLMENT and TEACHER reports.
- Race/ethnic categories are based on the newest federal standards for ethnicity and race reporting, though some categories have been combined because of small group sizes. Students reporting their ethnicity as “Hispanic” are not counted in any race category.
- “Economically disadvantaged” students are those who qualify for free or reduced-price lunch through the federal government’s program.
- MAGNET PROGRAMS: Teacher statistics are not available for magnets, academies, or vanguards. See statistics for the whole campus.

## **ENROLLMENT**

- Statistics are based on the school’s enrollment at the end of the fifth six-weeks grading period.
- For 2010-11, race/ethnic categories are based on the newest federal standards for ethnicity and race reporting, though some categories have been combined because of small group sizes; students reporting their ethnicity as “Hispanic” are not counted in any race category. For prior years, race/ethnicity is based on the previous categories.
- “Economically disadvantaged” students are those receiving free or reduced-price lunches.
- “New” students were new to the district in 2010-11. They are counted as new if not enrolled in a district campus before the last day of the 2009-10 school year.
- The “retention rate” is the percentage of students in the same grade at the end of the fifth six-weeks grading period for both 2009-10 and 2010-11.

## **ATTENDANCE**

- Statistics are based on student attendance through the end of the sixth six-weeks grading period (the end of the school year).
- “Average daily membership” is the total number of school days students were ENROLLED divided by the number of school days in the year.
- The “average daily attendance” number (N) is the total number of school days students were IN ATTENDANCE divided by the number of school days in the year. The “average daily attendance” percentage (%) is the average attendance rate. For each student, the number of days attended is divided by the number of days enrolled. This rate is then averaged across students.
- The number (N) of “yearly transactions” is the total number of transfer and withdrawal transactions in the school year. The percentage (%) is the number of transactions divided by “average daily membership,” which gives (on average) the percentage of the membership associated with a transaction.
- “Continuously enrolled” students are enrolled for a minimum number of instructional days between the beginning of the school year and the first day of the main TAKS testing period. This number varies from 125 to 130 depending on the calendar in a particular school year.
- The “stability rate” is the number of continuously enrolled students divided by “average daily membership.”

## **TAKS and TAKS-Modified**

- Cells marked with an asterisk (\*) indicate five or fewer students were tested. Blank cells indicate no students were tested.
- Student group assignments are those reported to the TEA in the Public Education Information Management System (PEIMS) submission for the district.
- TAKS statistics are based on both TAKS and TAKS-Accommodated results. TAKS-M statistics are based exclusively on TAKS-M results.
- Statistics on the objective performance summaries are averages for all students in the grade indicated.
- An “average percentage correct” is computed as follows: for each student, divide the number of items correctly answered by the total number of items in the test section, then compute the average percentage for all students. For written compositions, an “average composition rating” is presented. TAKS compositions are rated on a scale of 1 to 4.
- Cell shading for percentage meeting standard is based on the AEIS or AYP minimum requirement for 2012, whichever is higher for the subject test.
- READING and MATHEMATICS statistics for SSI grades (3, 5, 8) in any year are based on scores cumulative through the second administration.

**SCE COMPLIANCE and ITBS / ITED / LOGRAMOS**

- Cells marked with an asterisk (\*) indicate five or fewer students were tested. Blank cells indicate no students were tested.
- Student group assignments are based on demographic data in the Dallas ISD student database.
- Mathematics Total results used for data packets are combinations of the Mathematics Concepts, Problems, and Computation subtest results. For schools who did not administer Mathematics Concepts or Mathematics Problems to their students, Mathematics Computation statistics are provided separately.

**ACP**

- Cells marked with an asterisk (\*) indicate five or fewer students were tested. Blank cells indicate no students were tested.
- The ACPs are given as final course exams in grades 7-12. They account for a portion of students' final semester grades: 15 percent for high school and 10 percent for middle school. "Average course mark (no ACP)" is computed from semester grades before factoring in ACP scores.
- Raw scores on the ACPs (percentage of items correct) are scaled each year to maintain similar annual passing rates for the district.
- A scale score of at least 70 percent is required to pass an ACP. A course mark of at least 70 percent is required to pass a course.
