

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

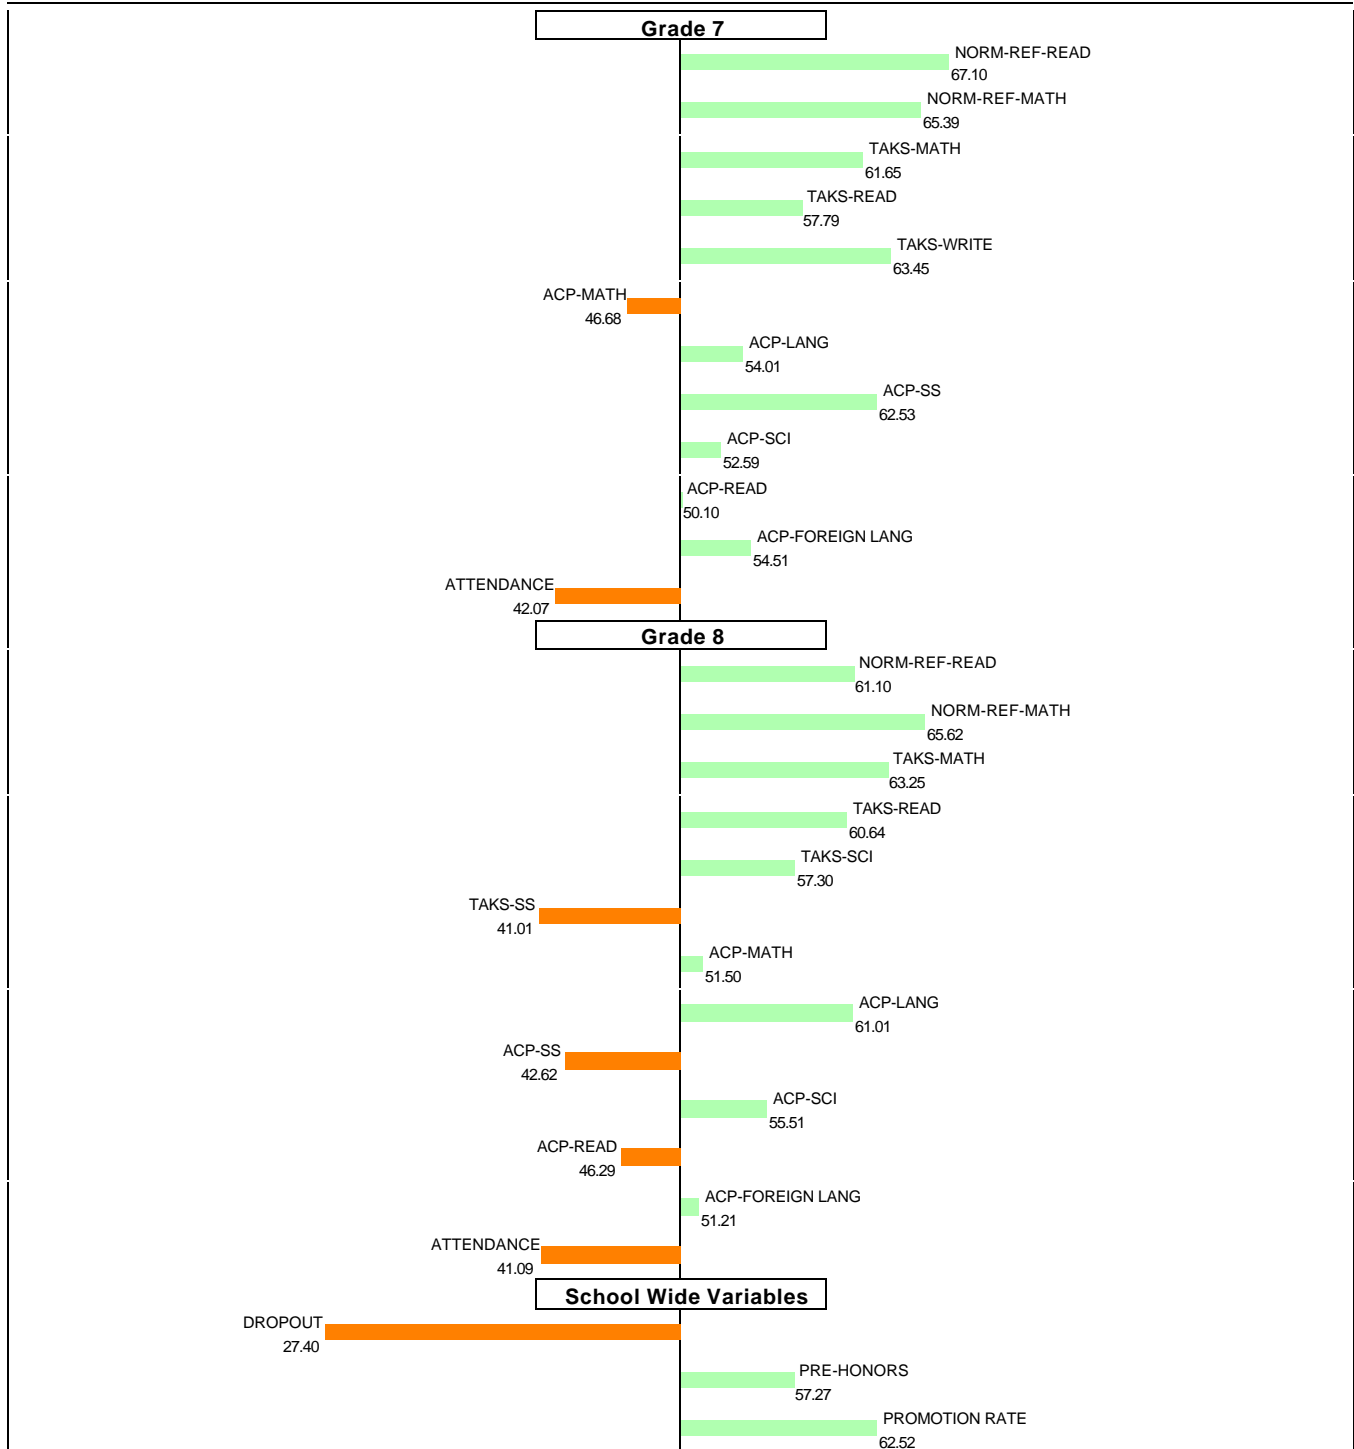

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

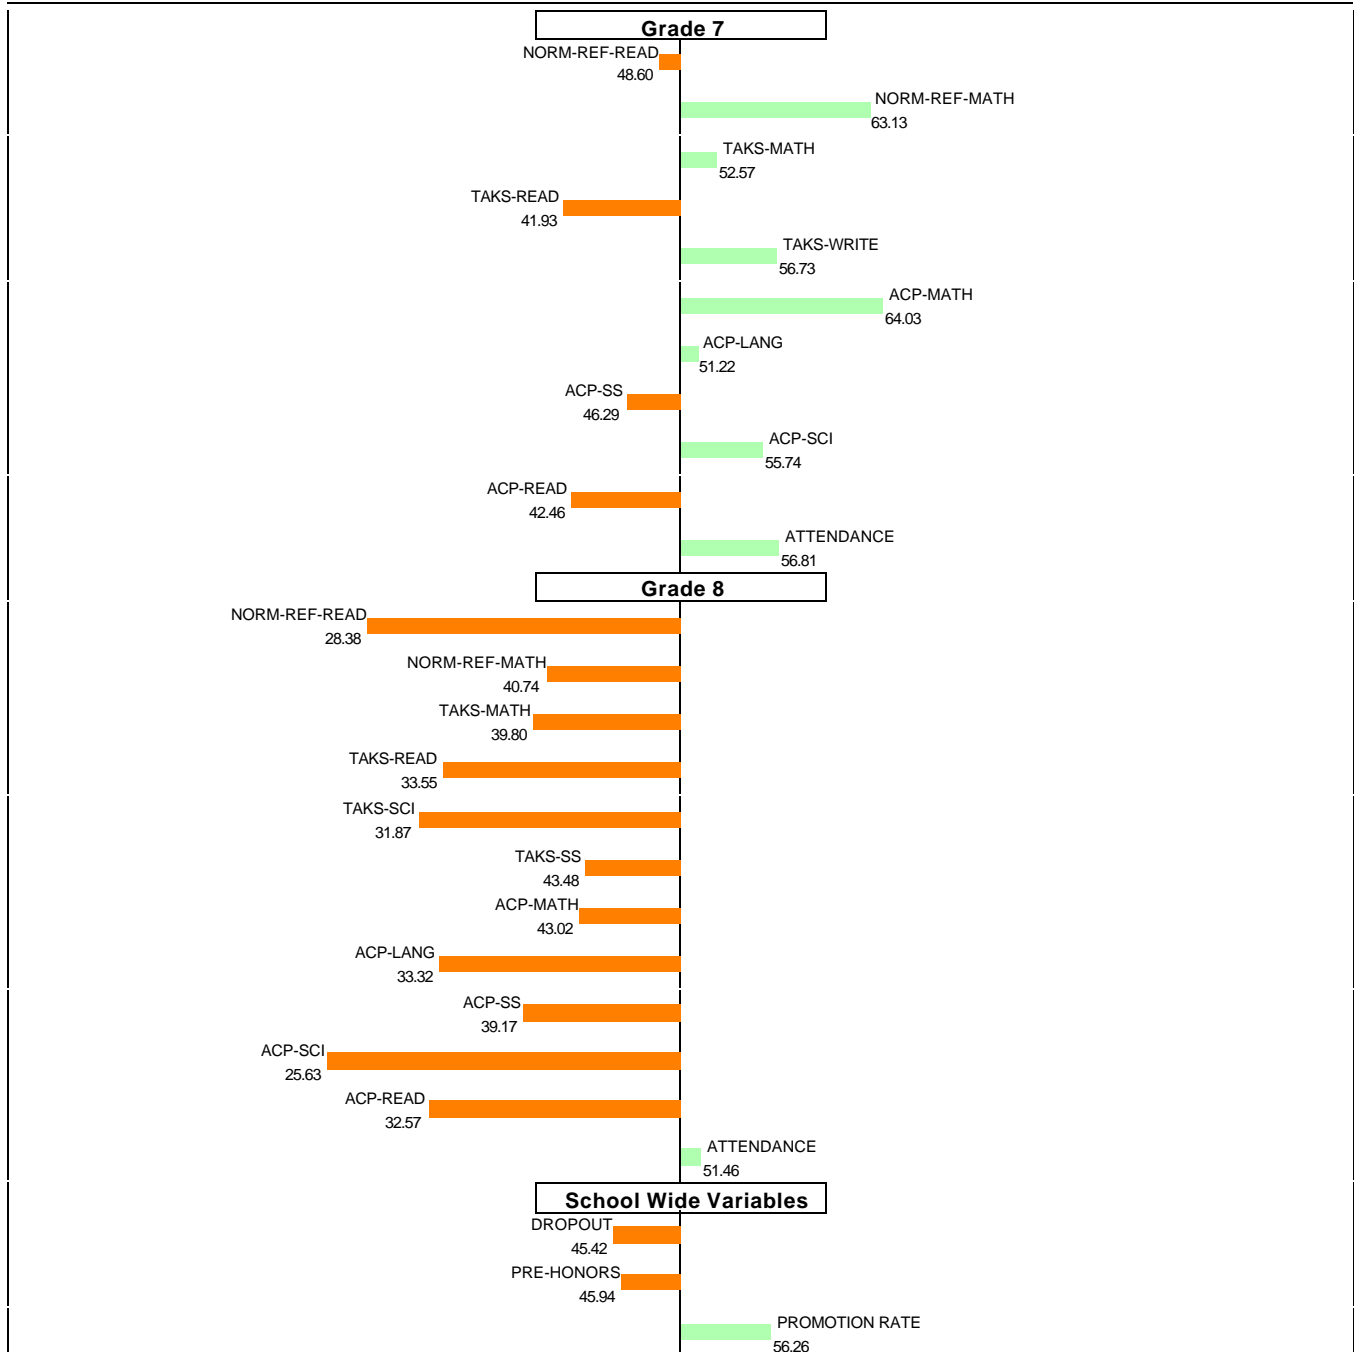

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

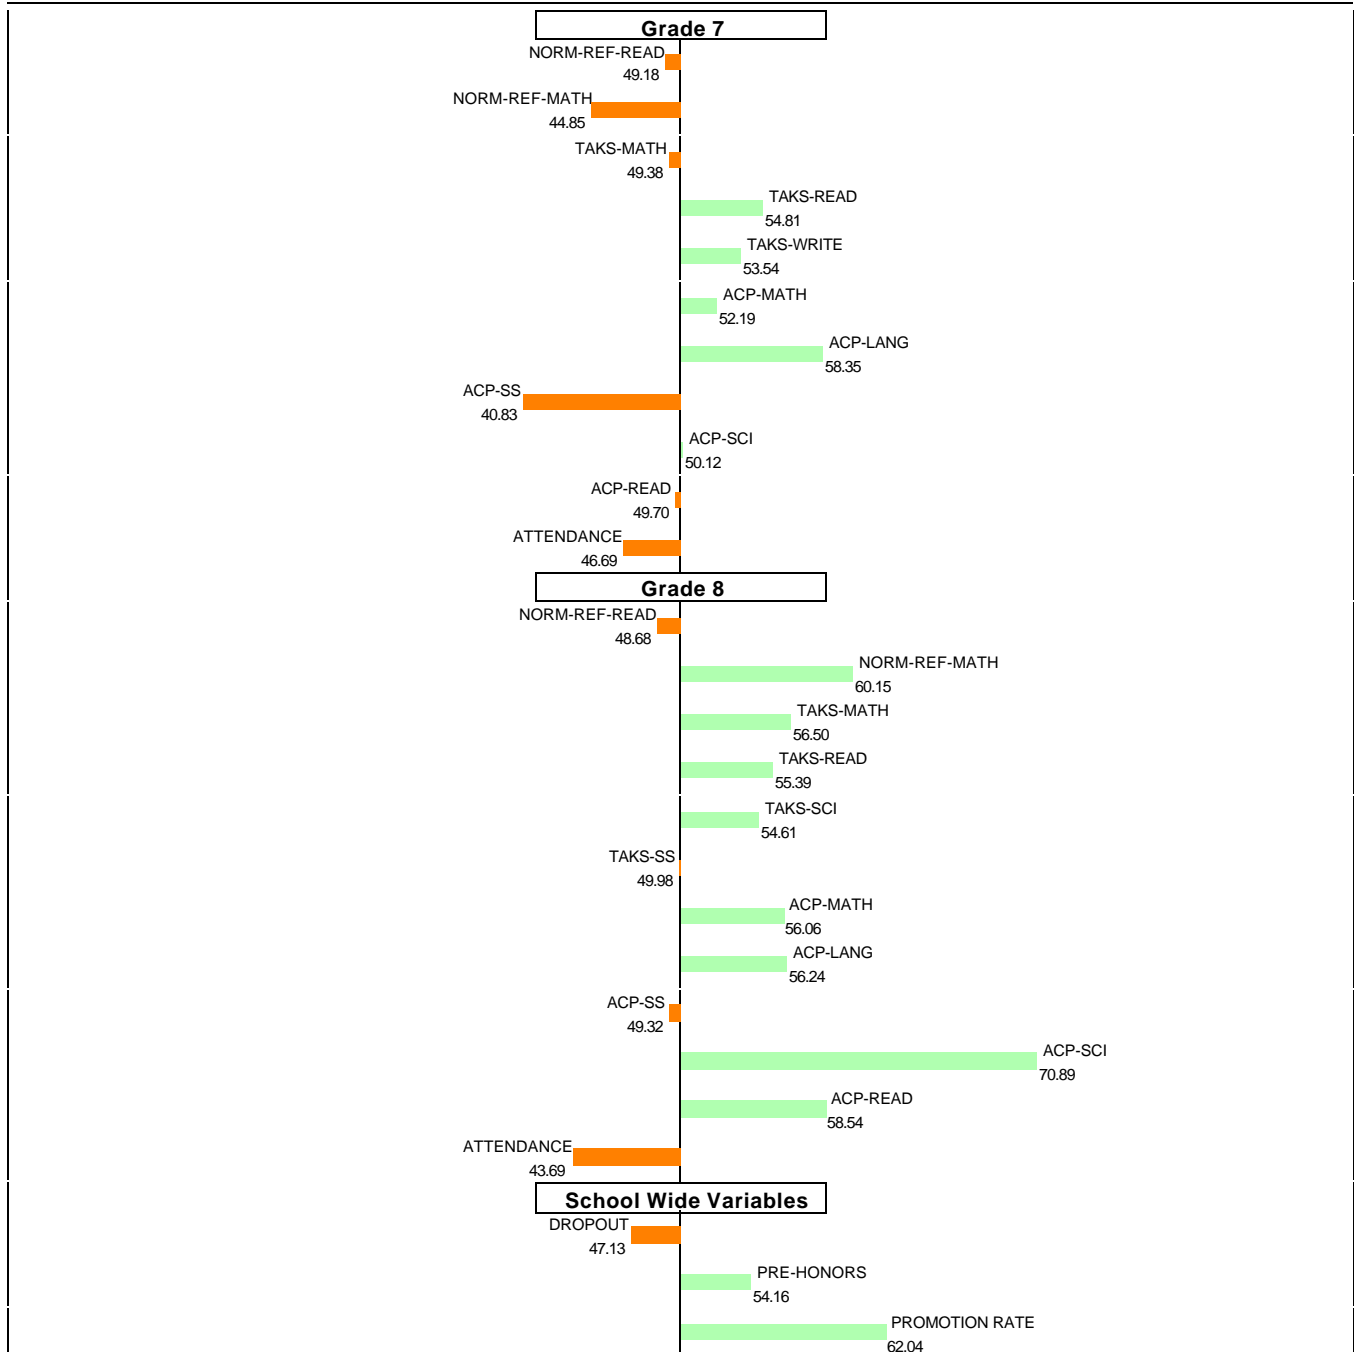

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

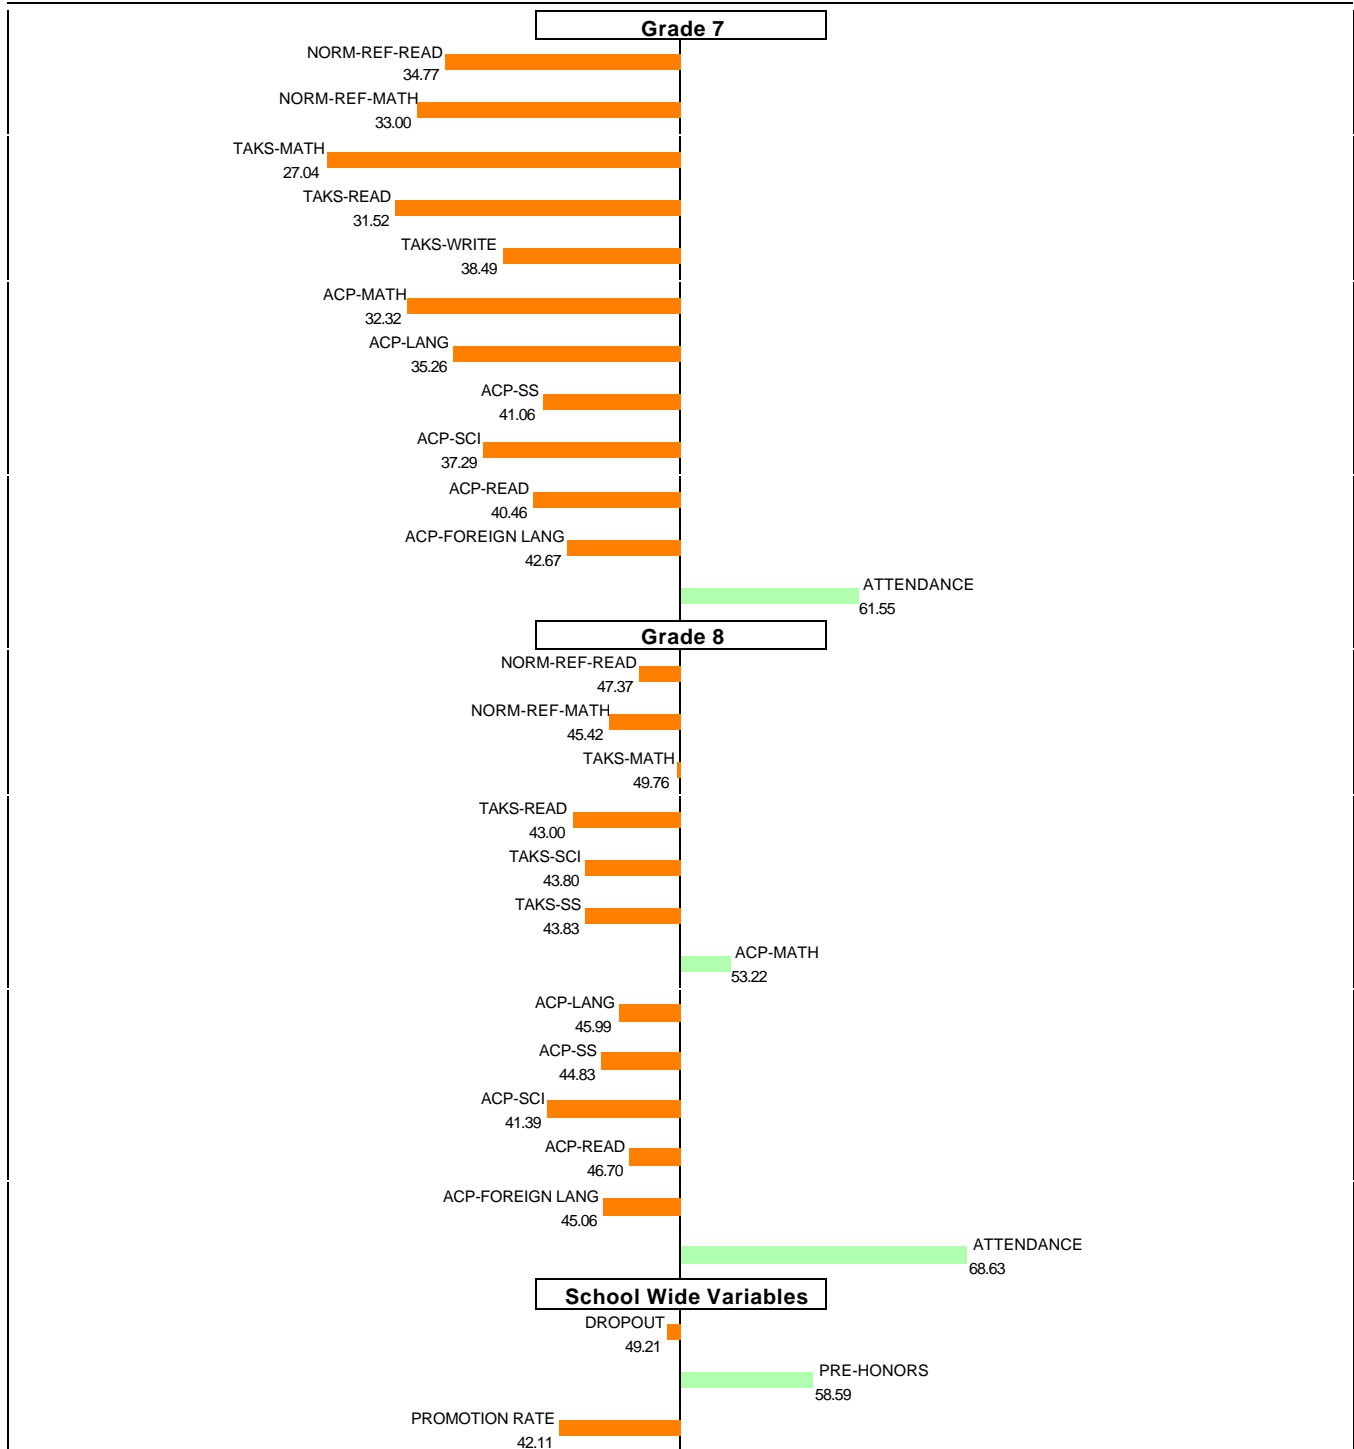

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

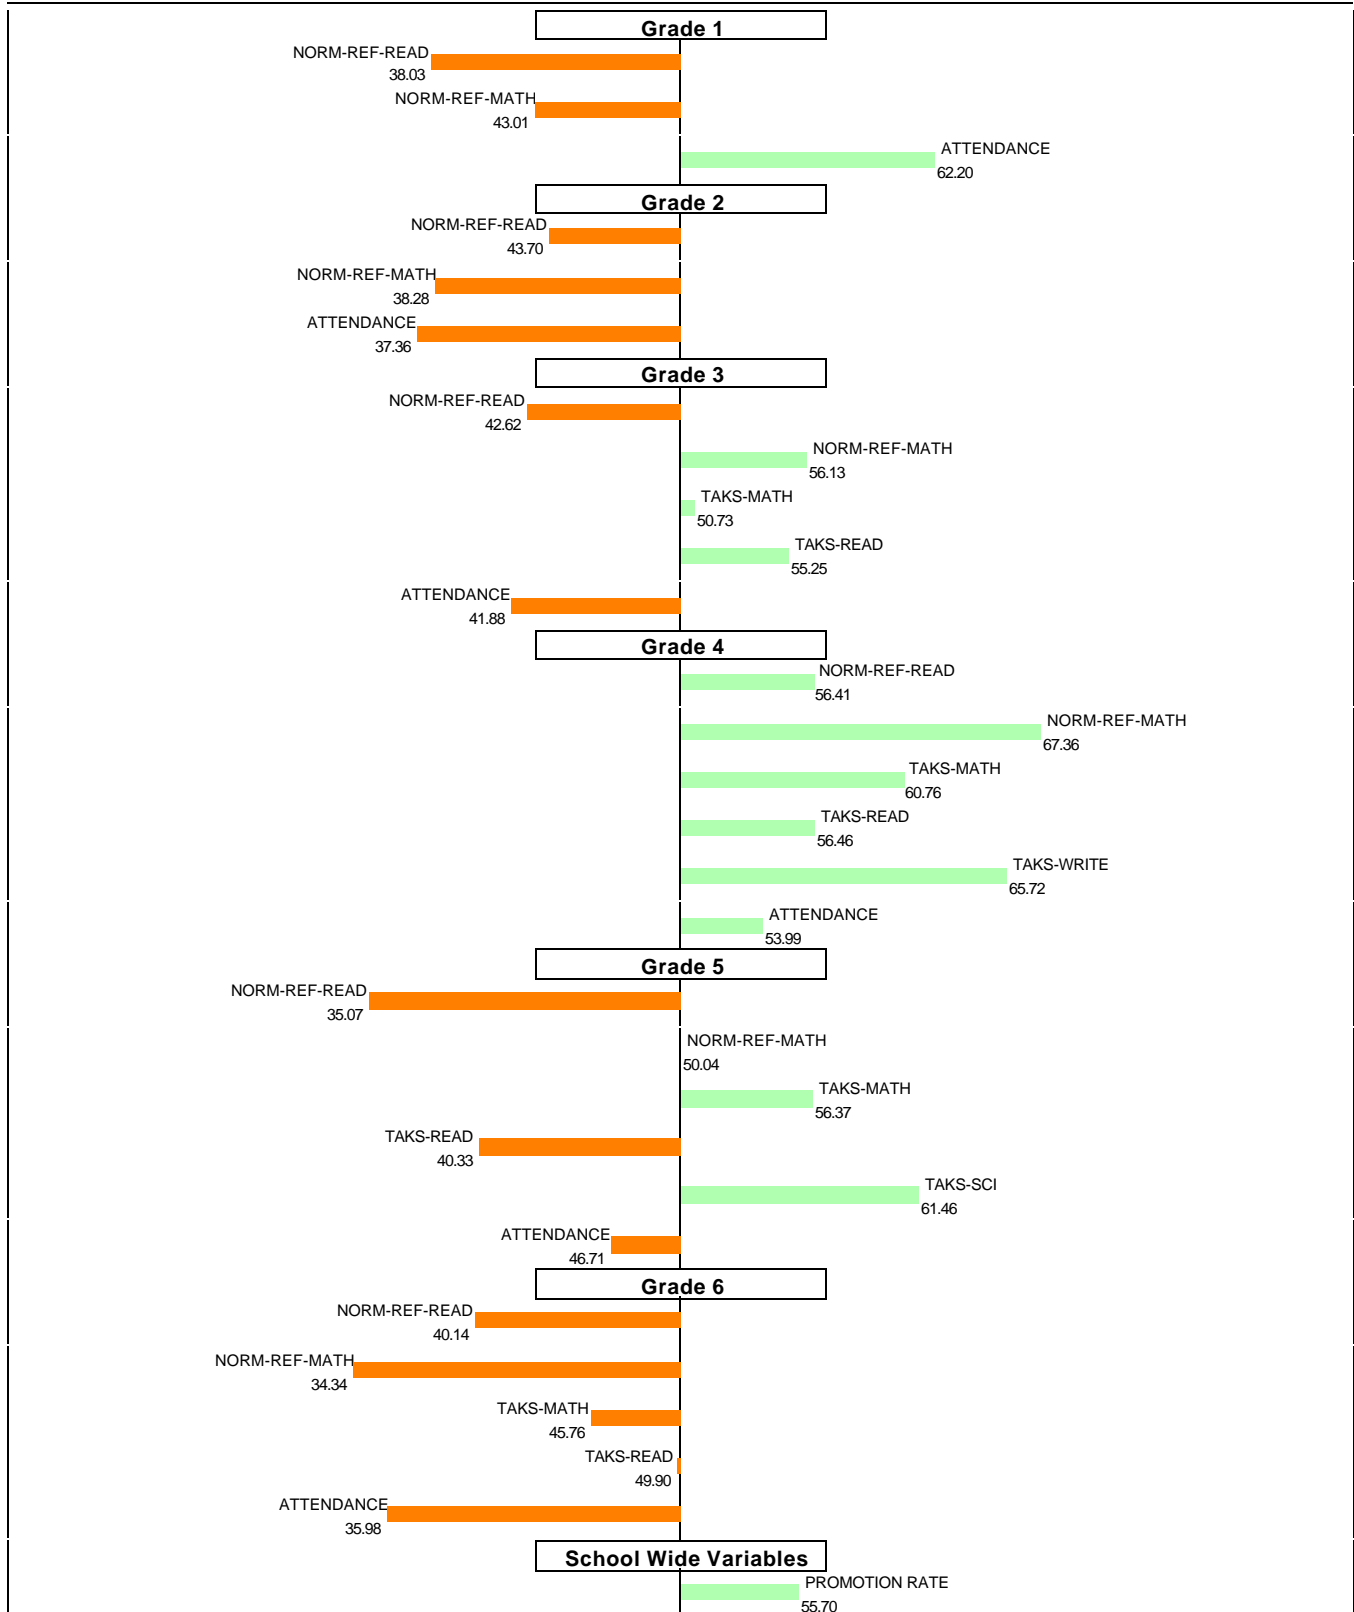

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

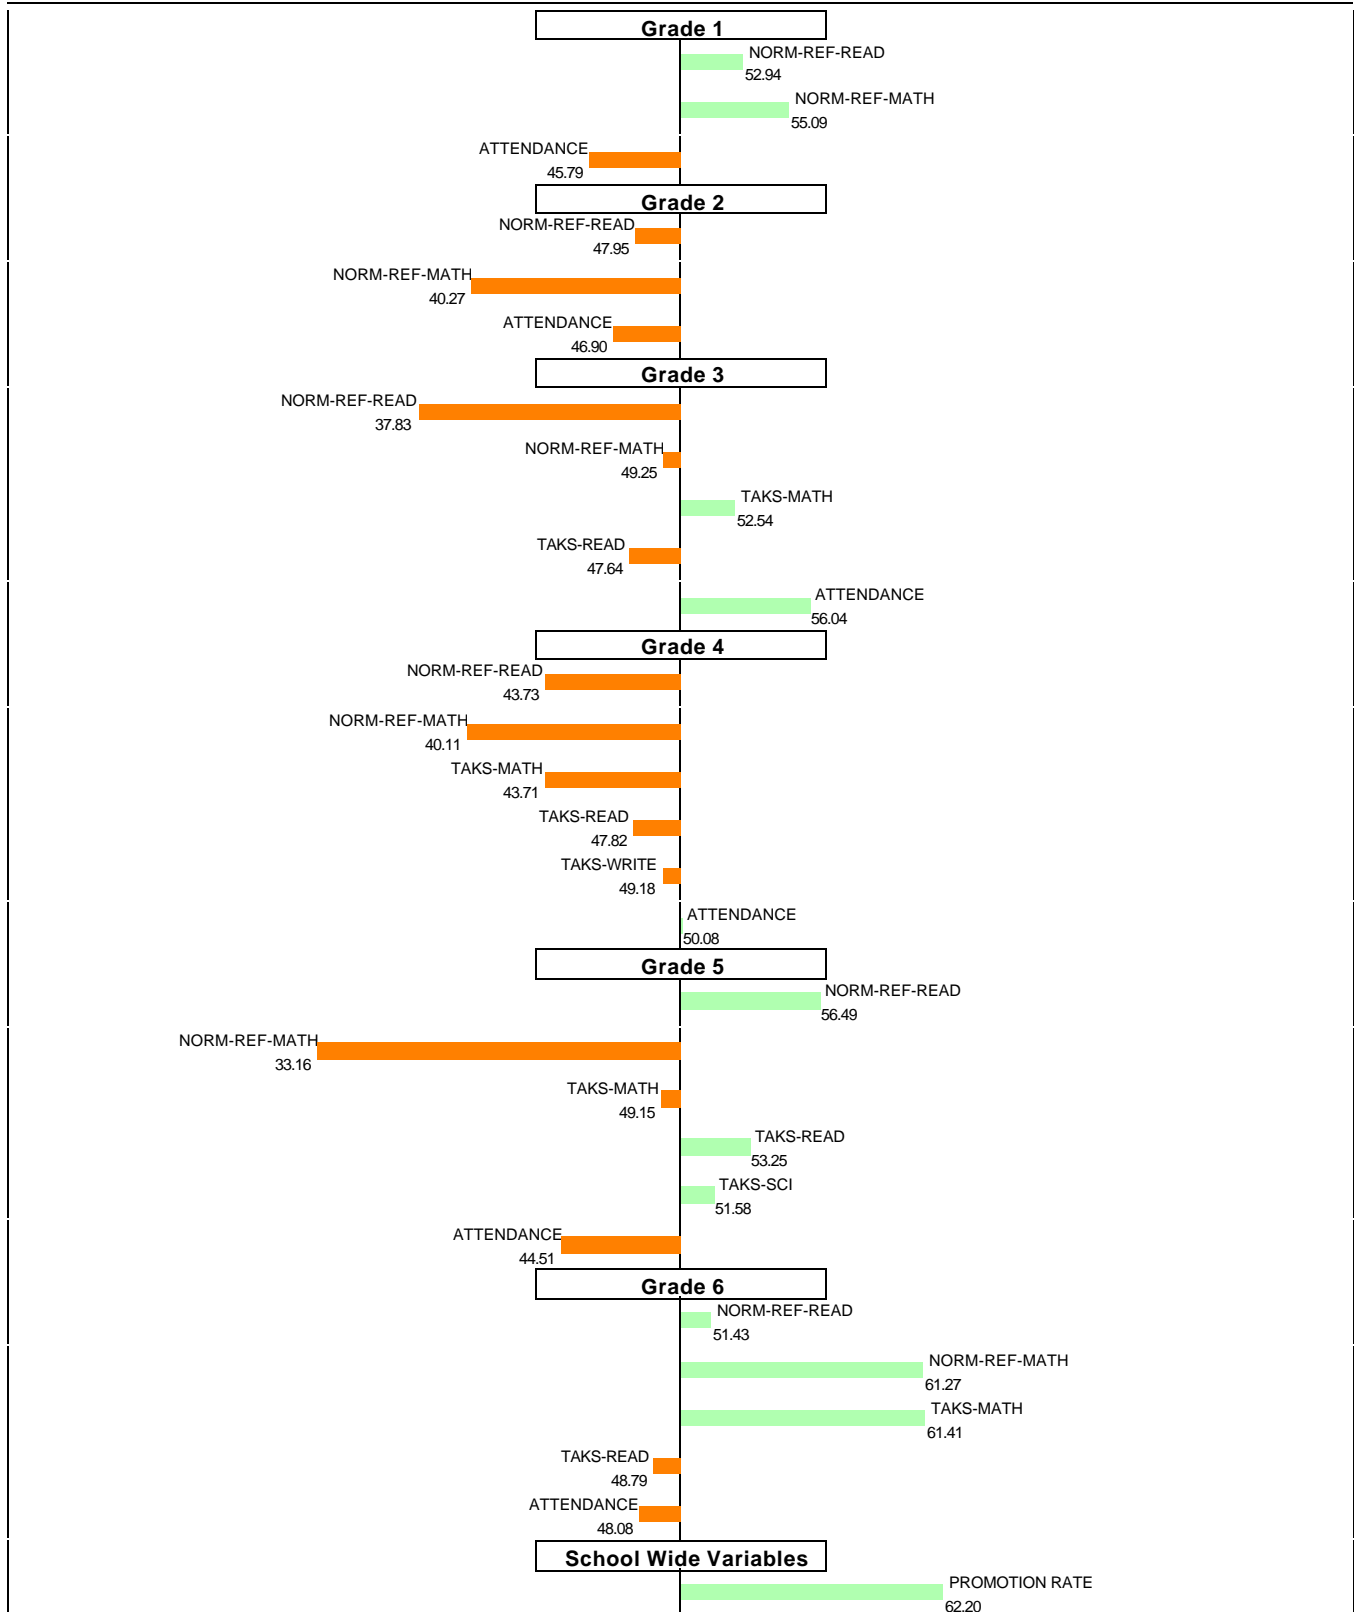

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

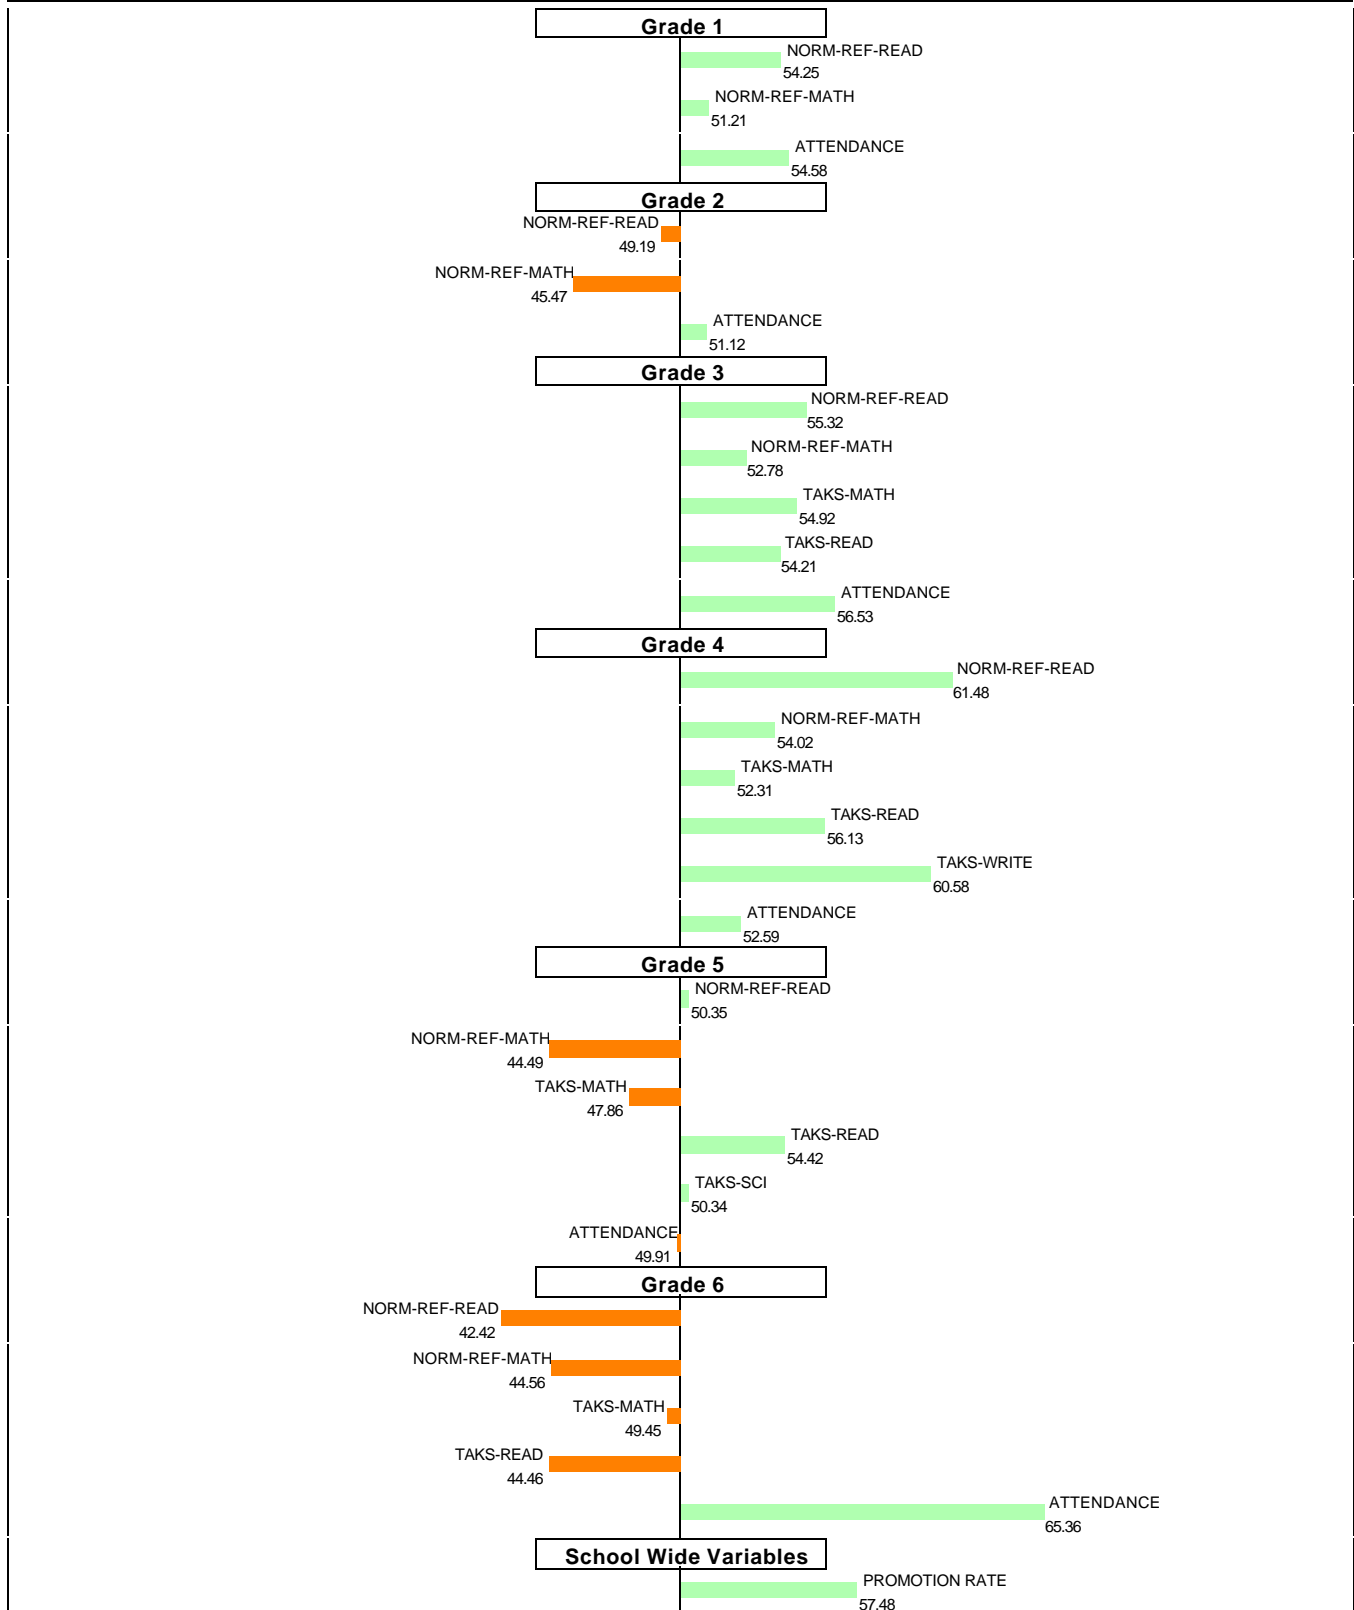

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

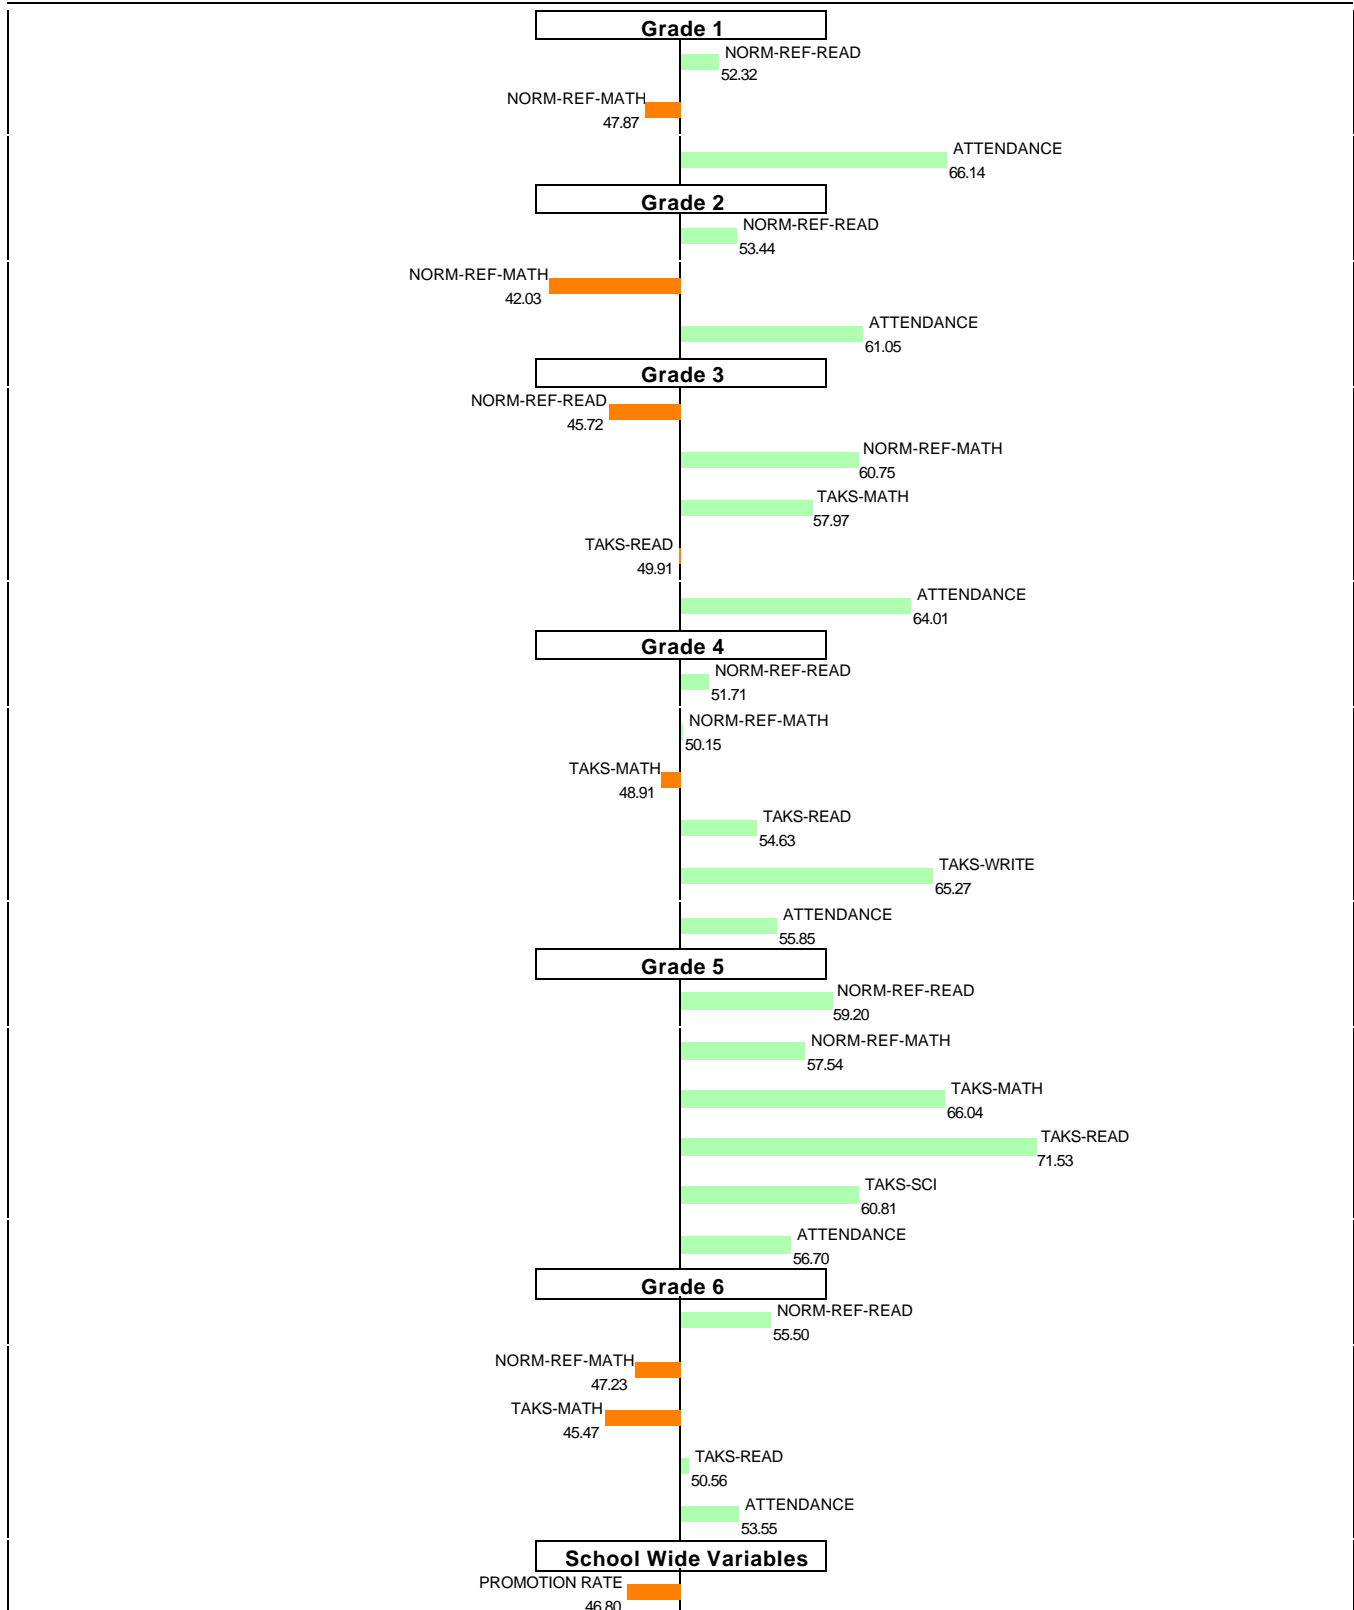

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

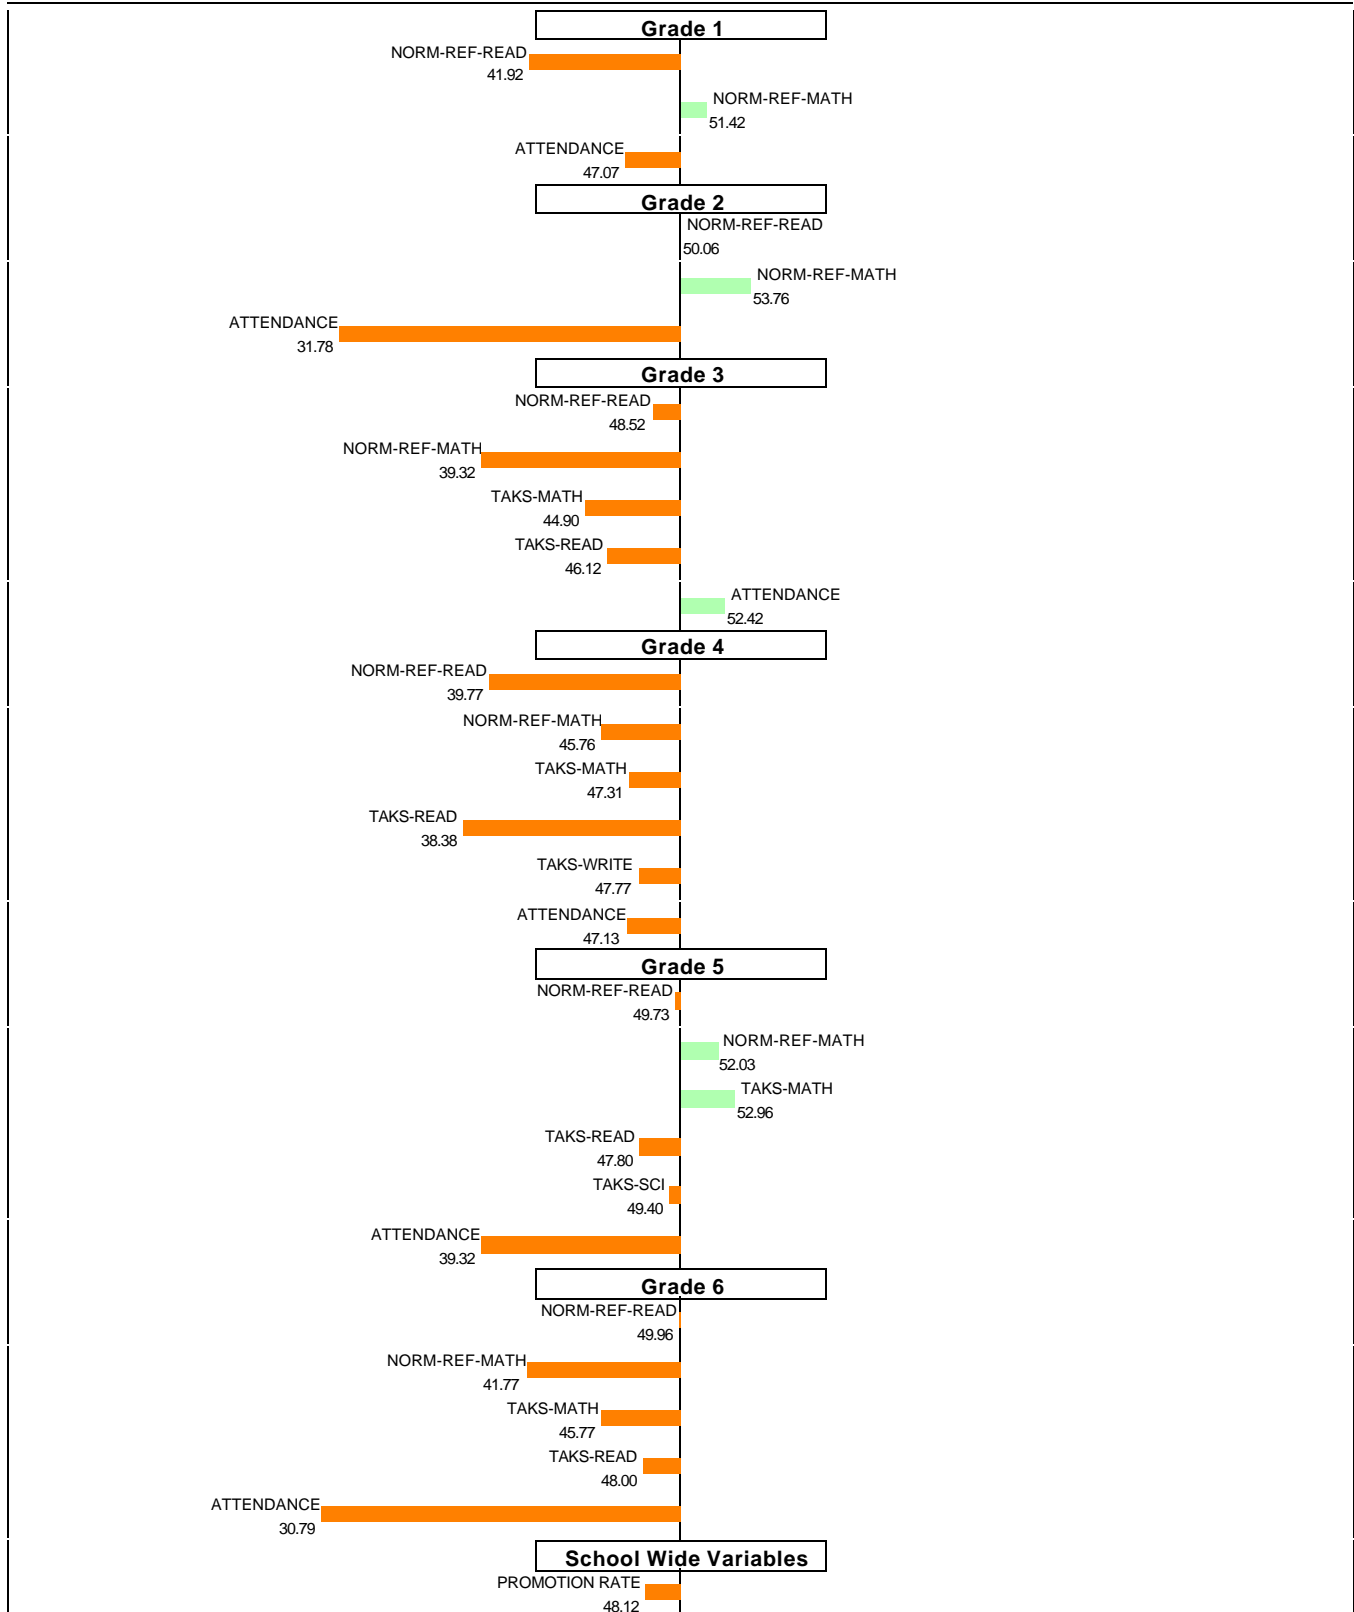

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

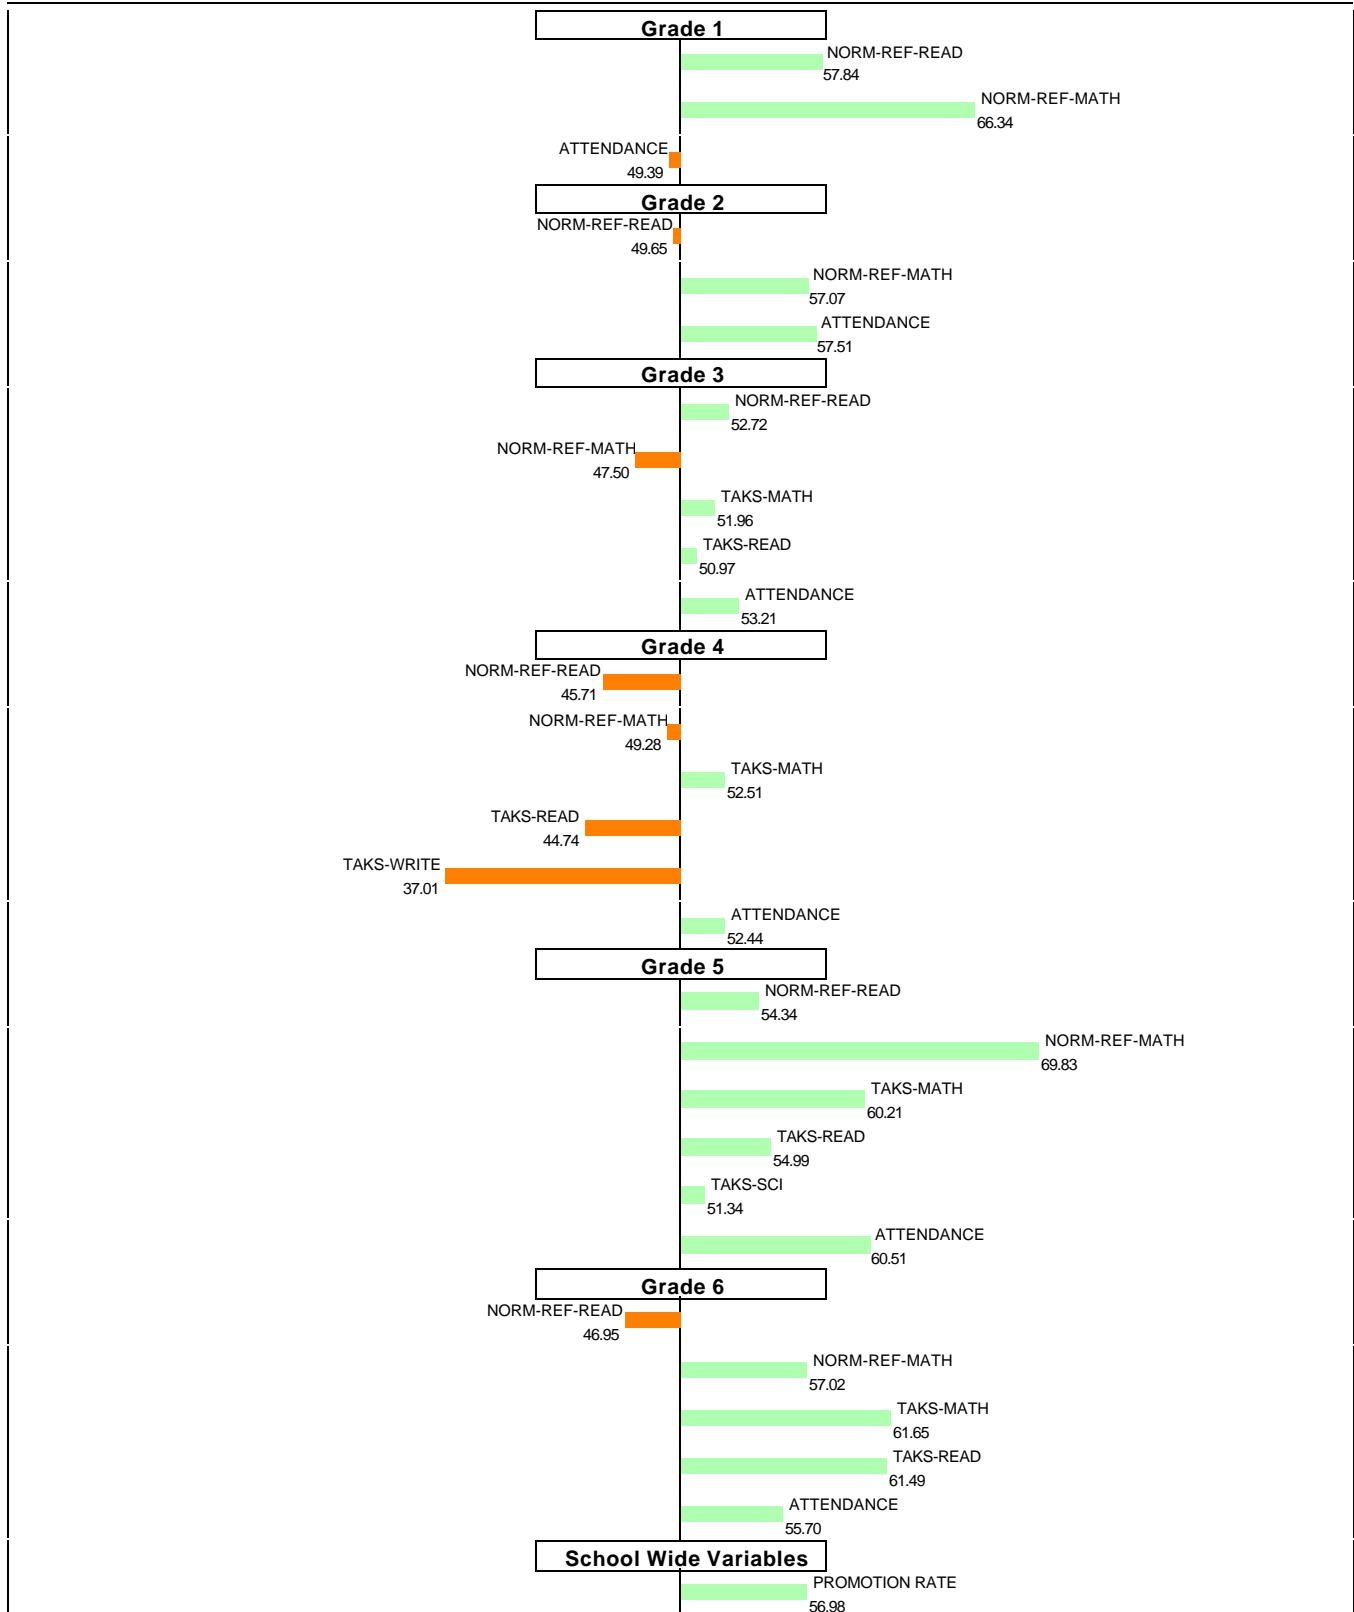

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

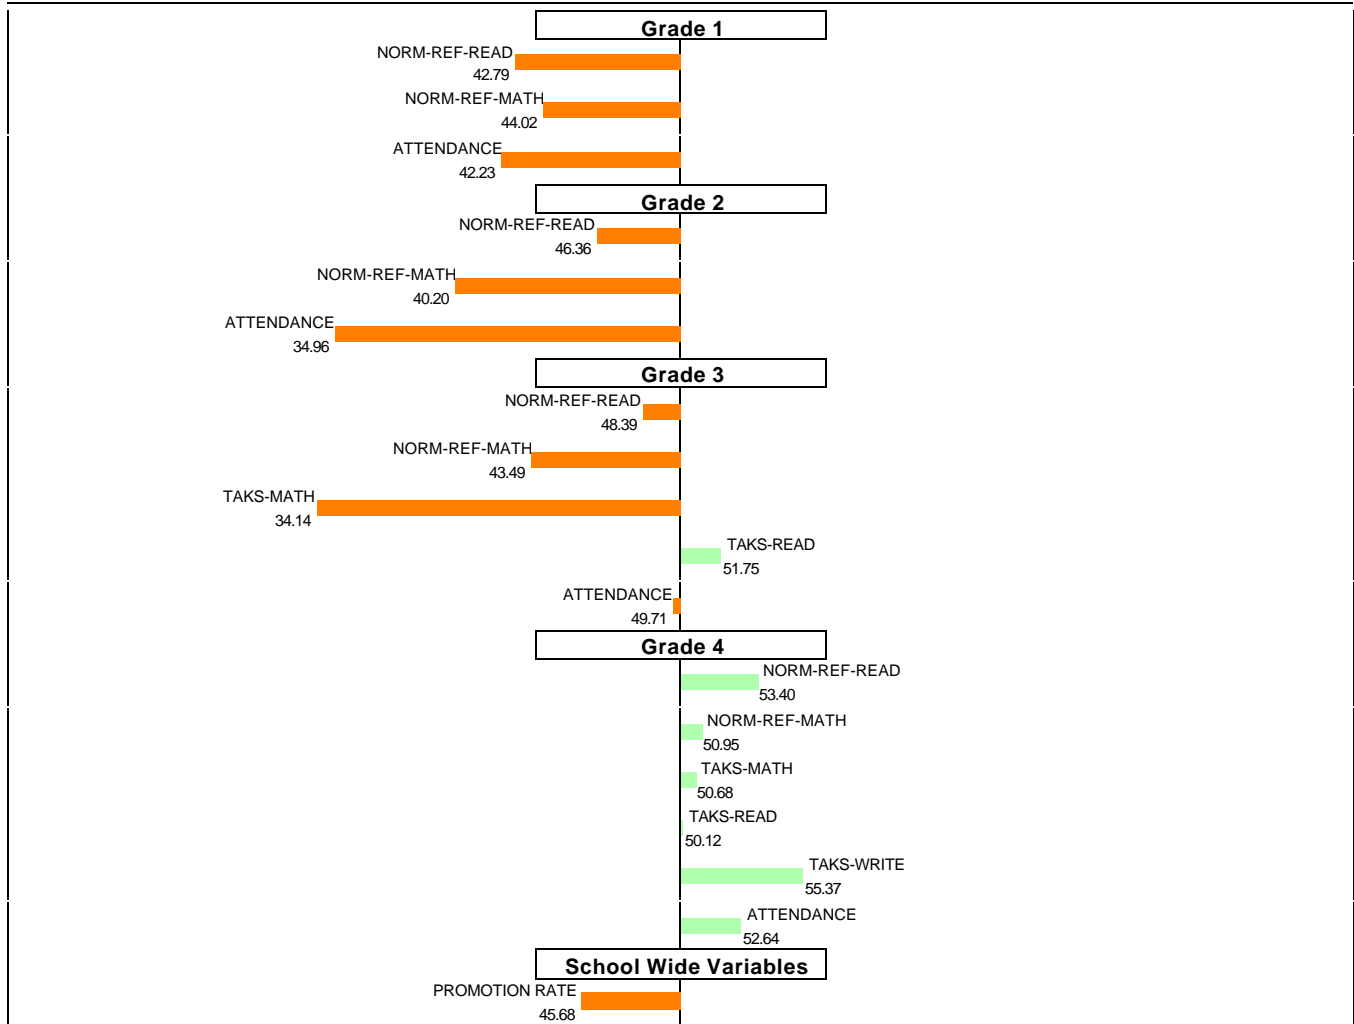

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

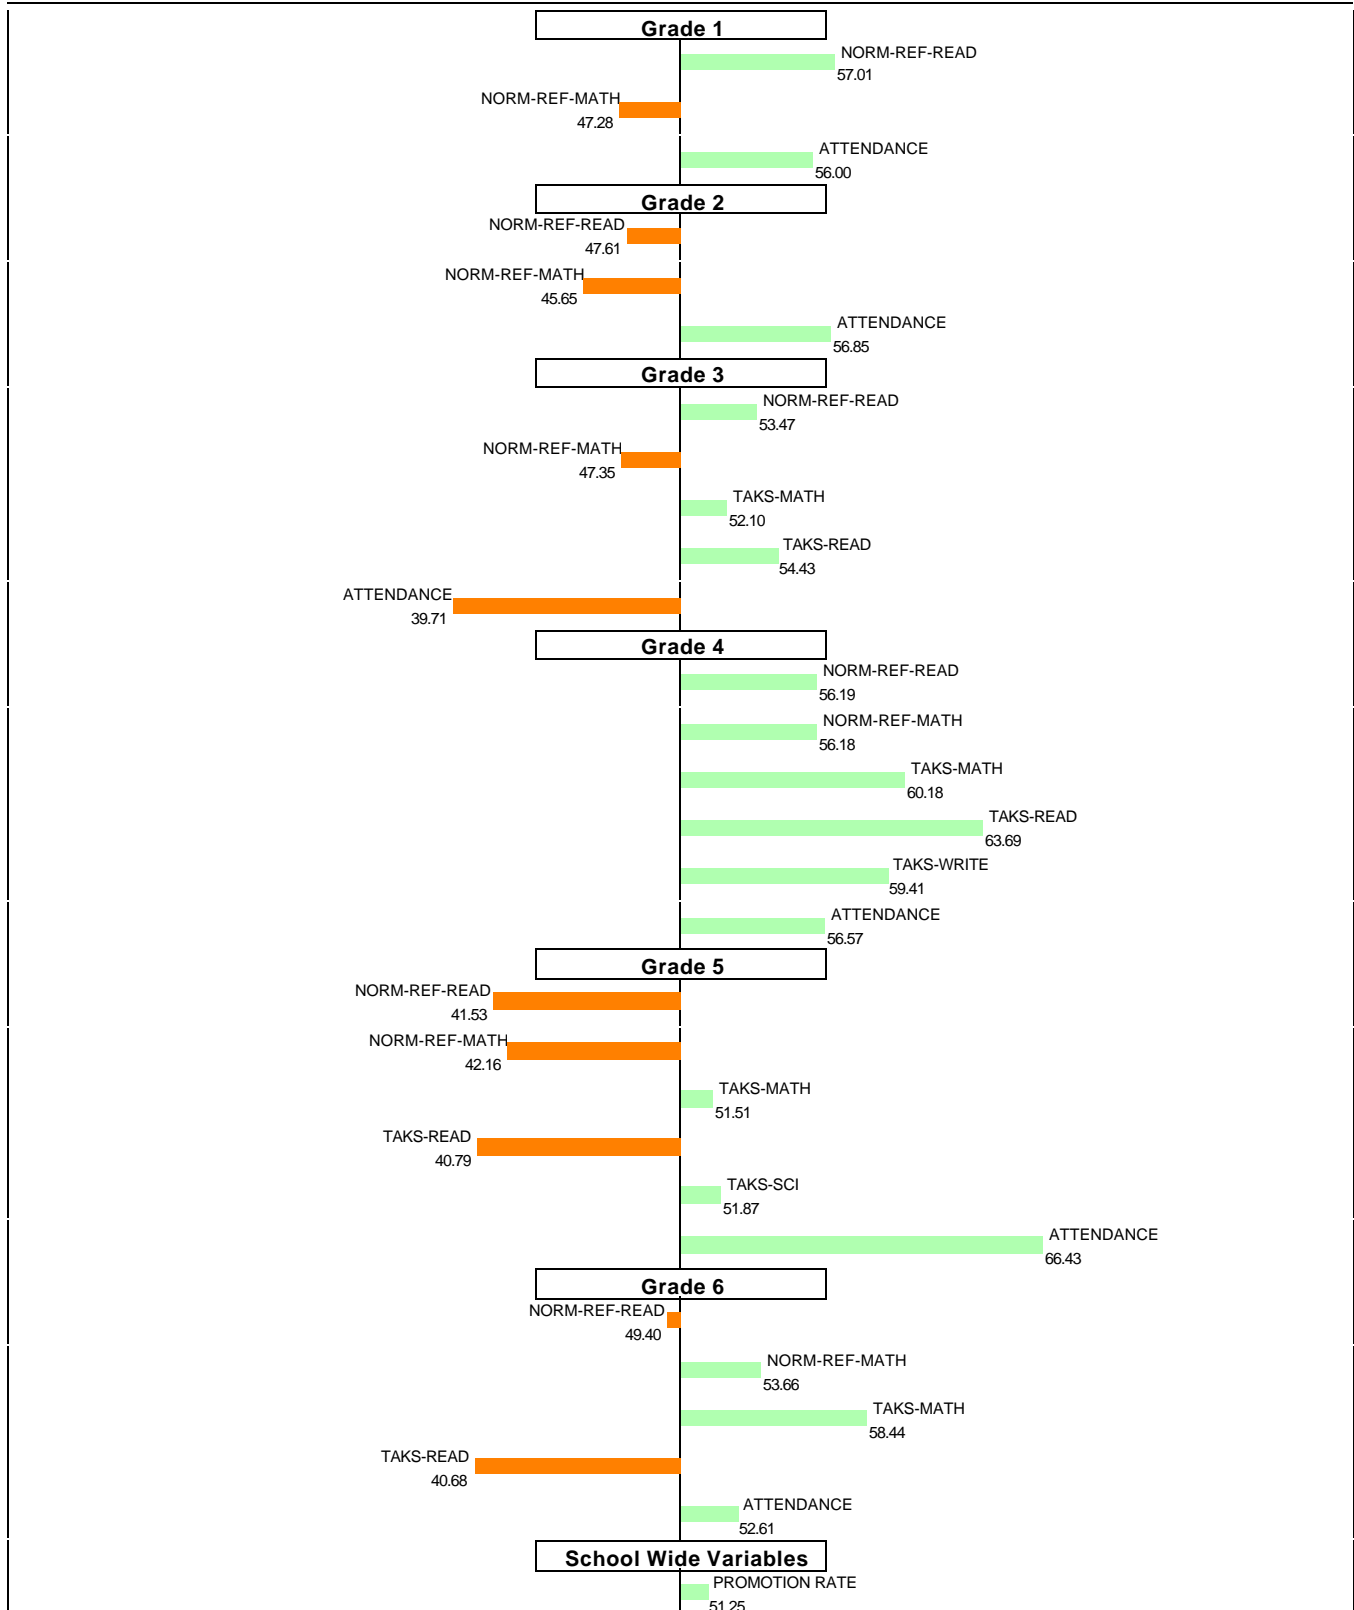

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

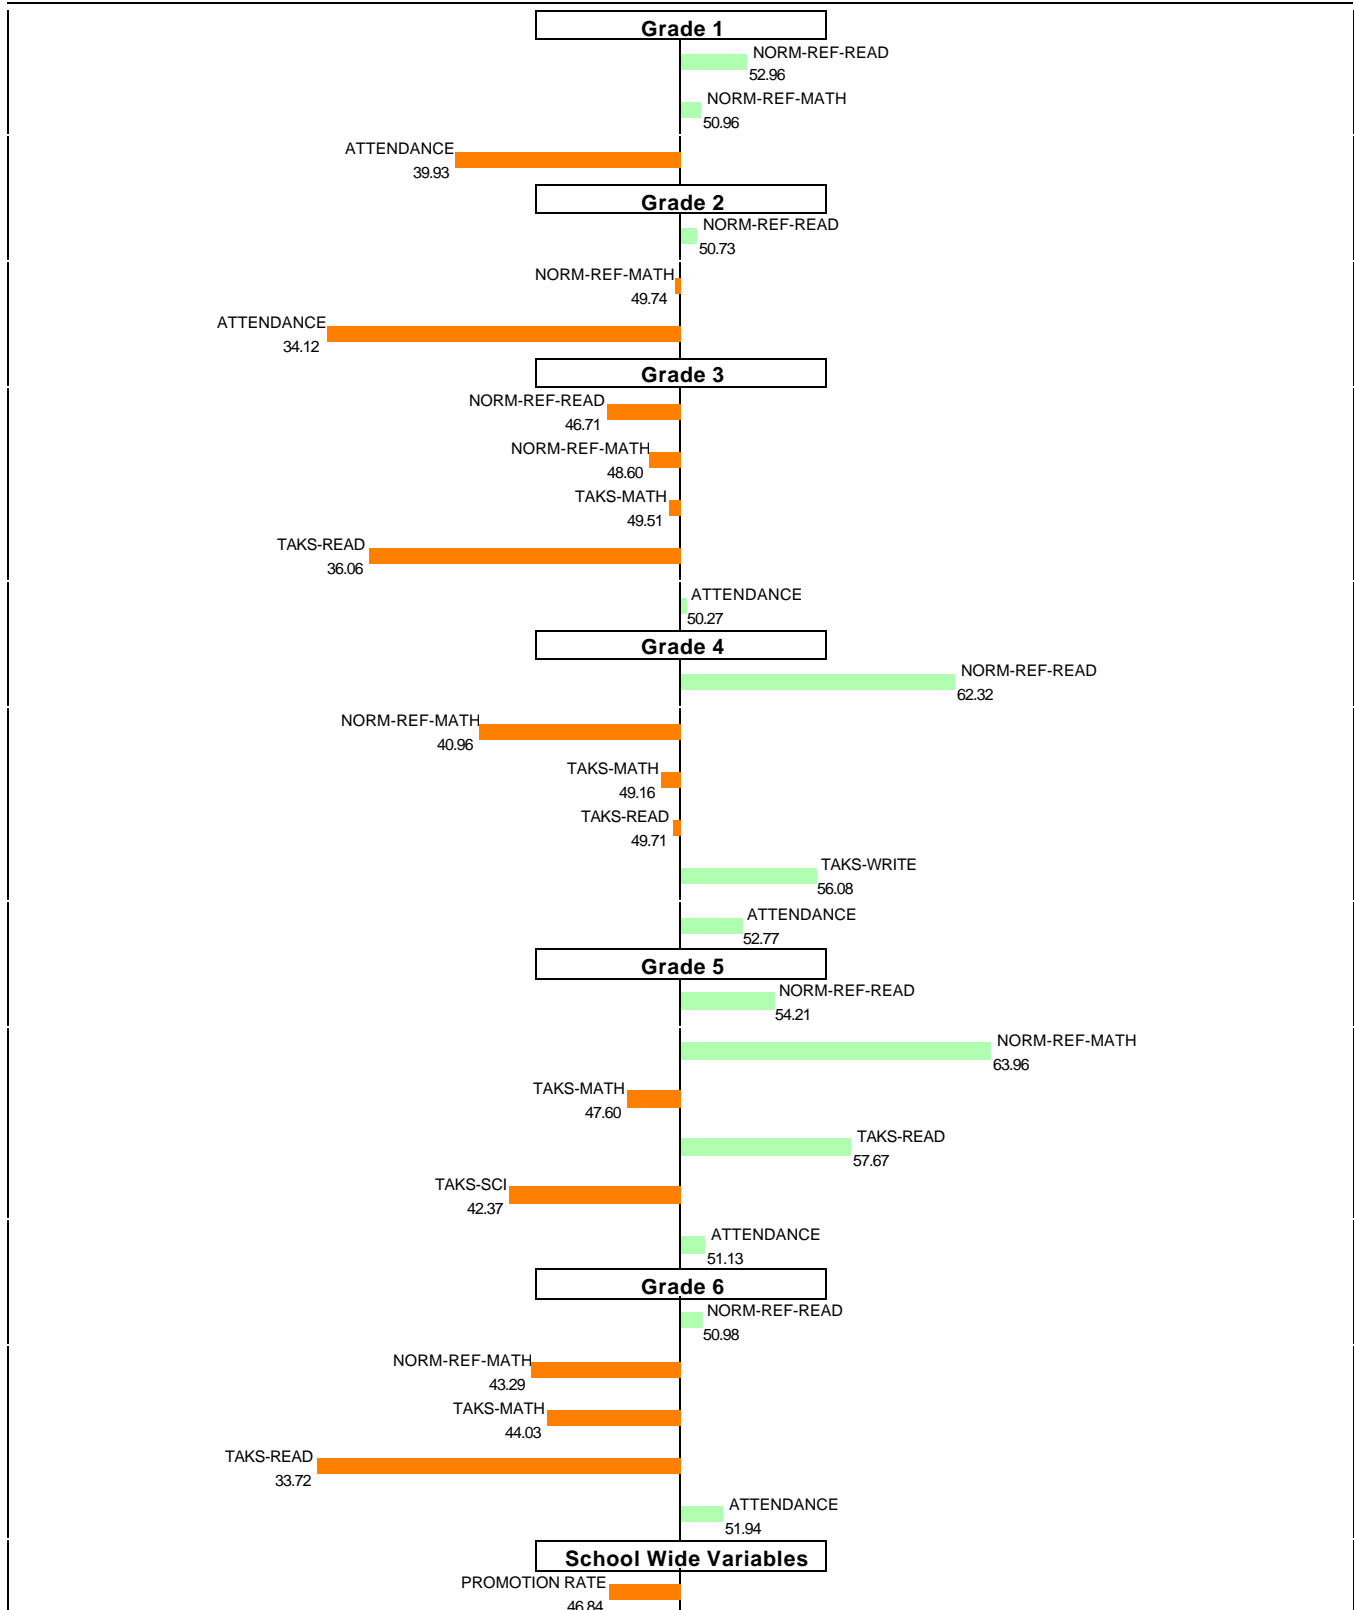

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

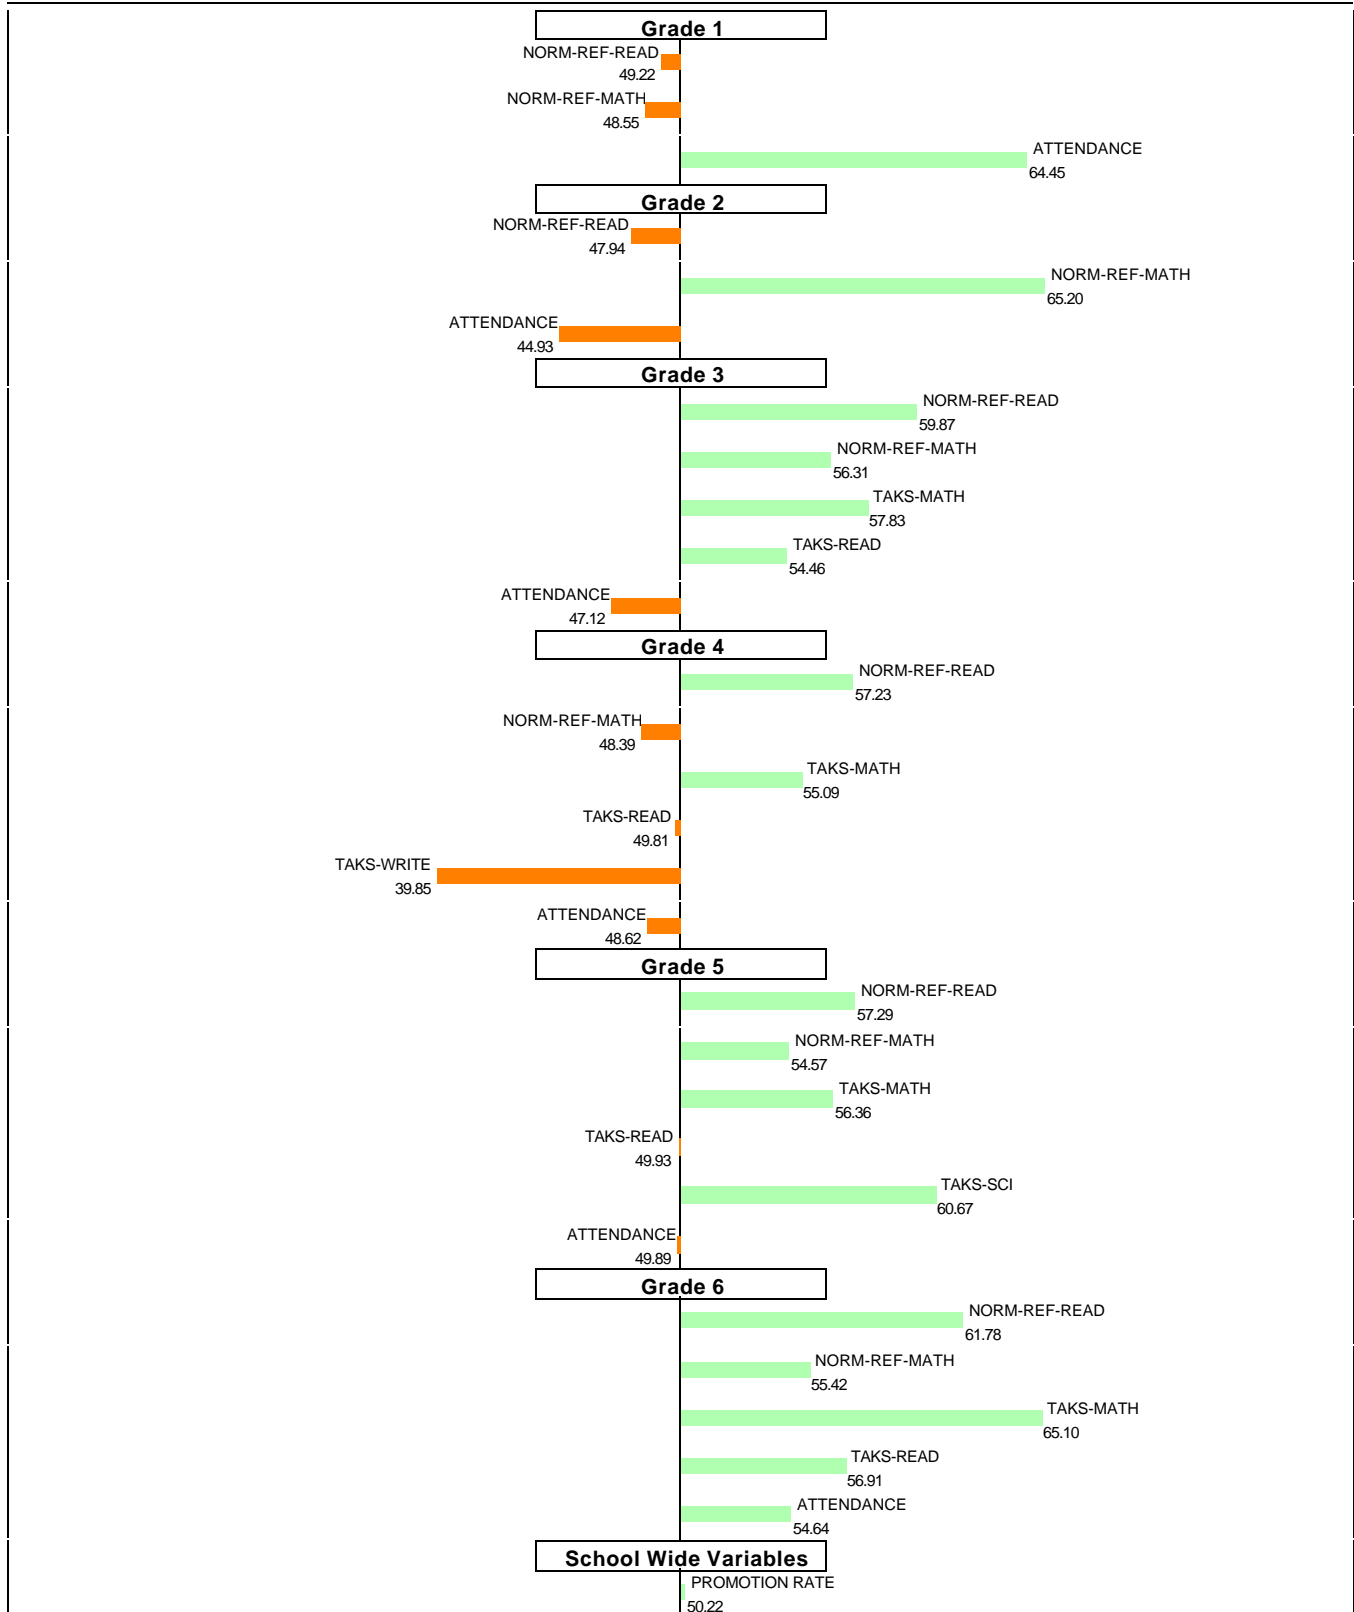

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

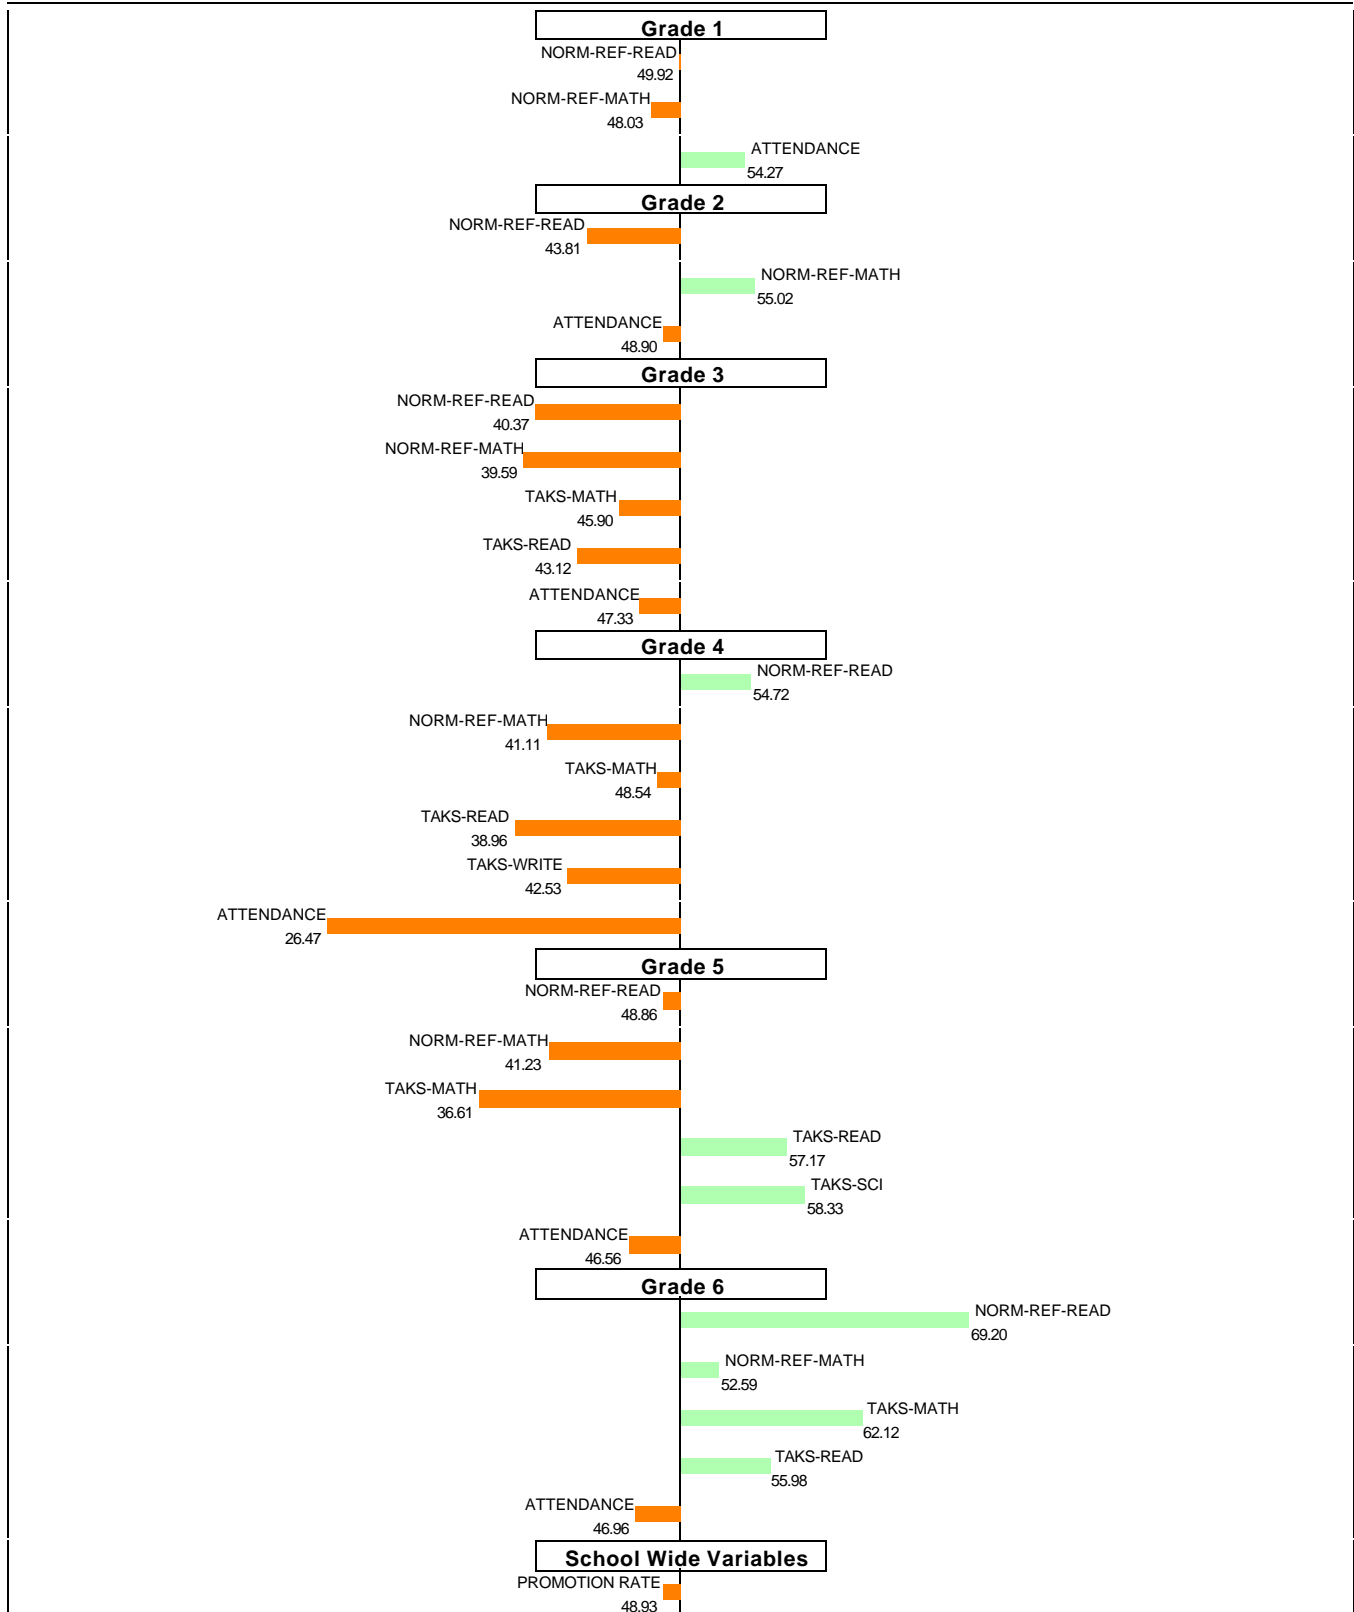

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

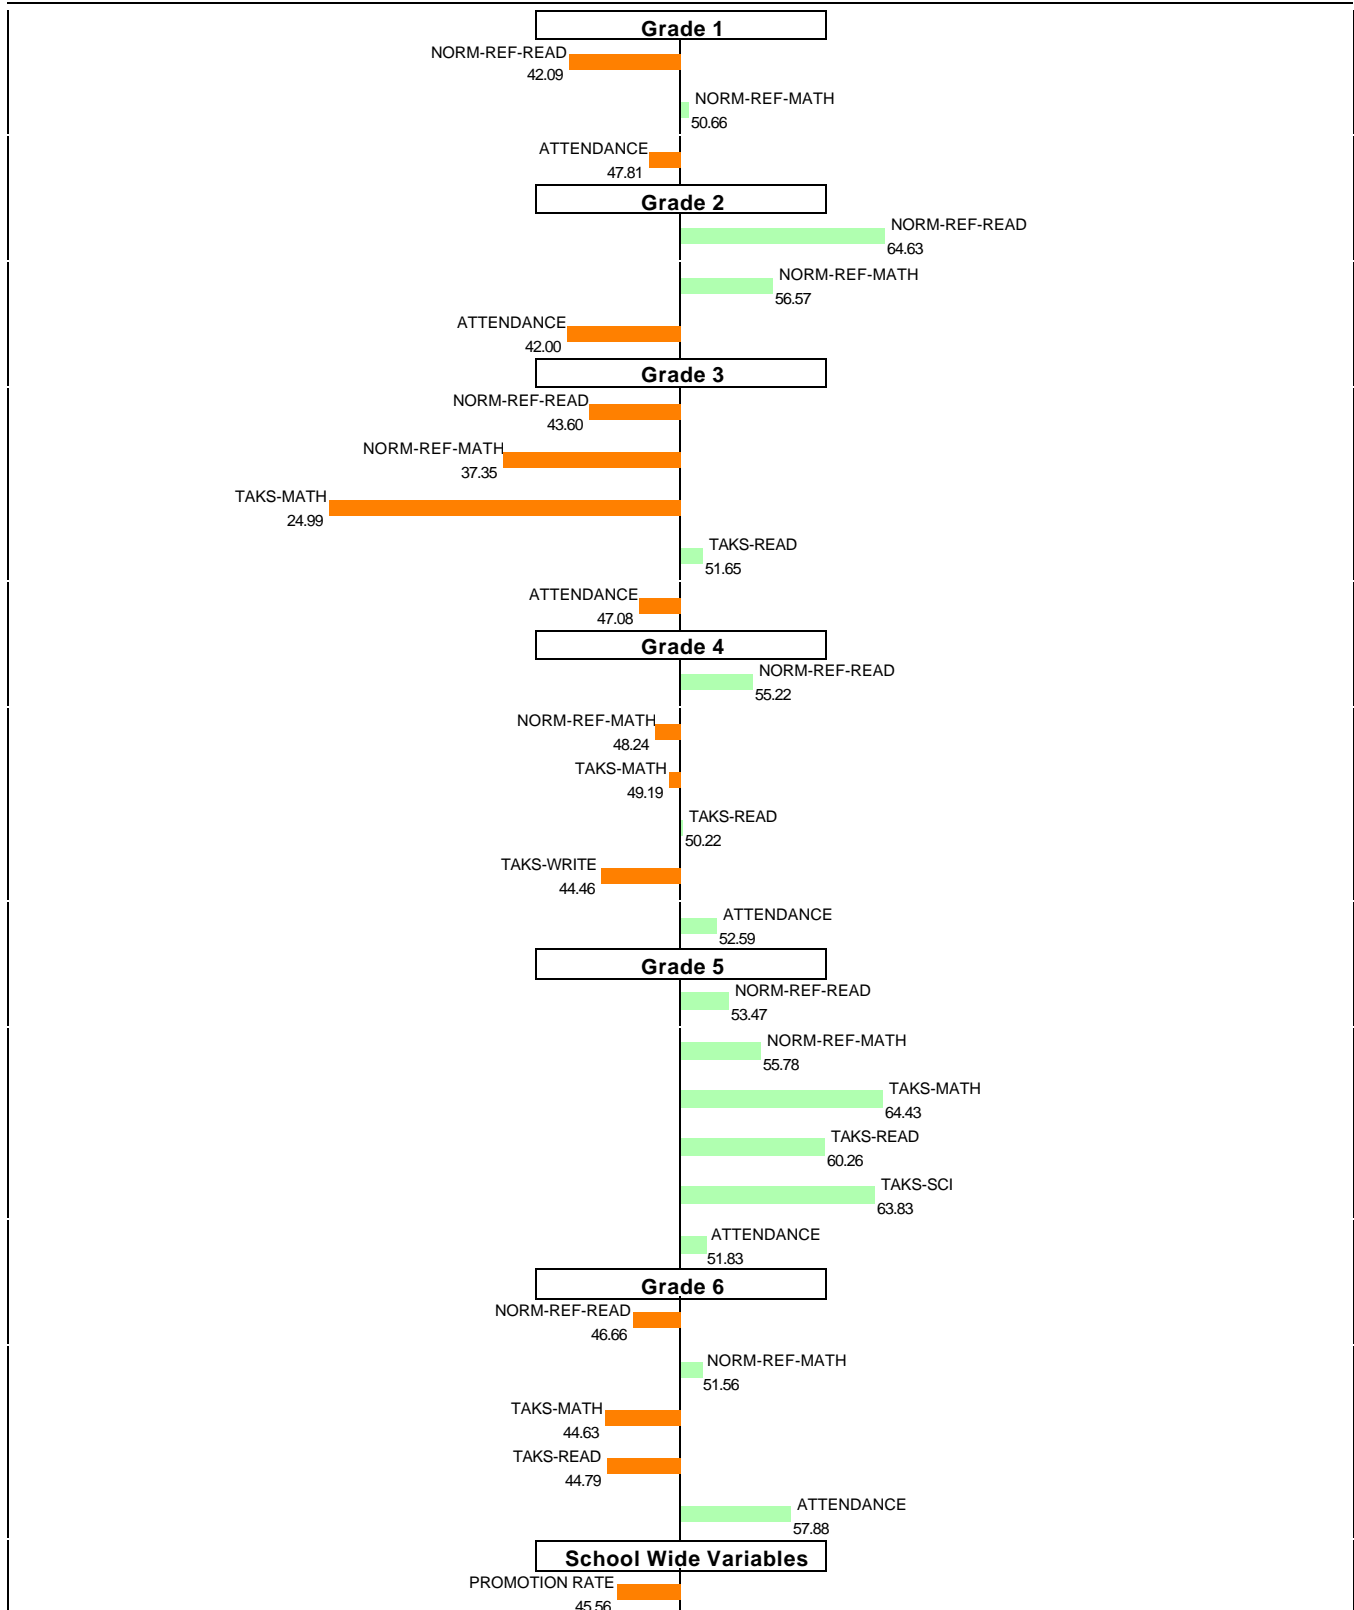

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

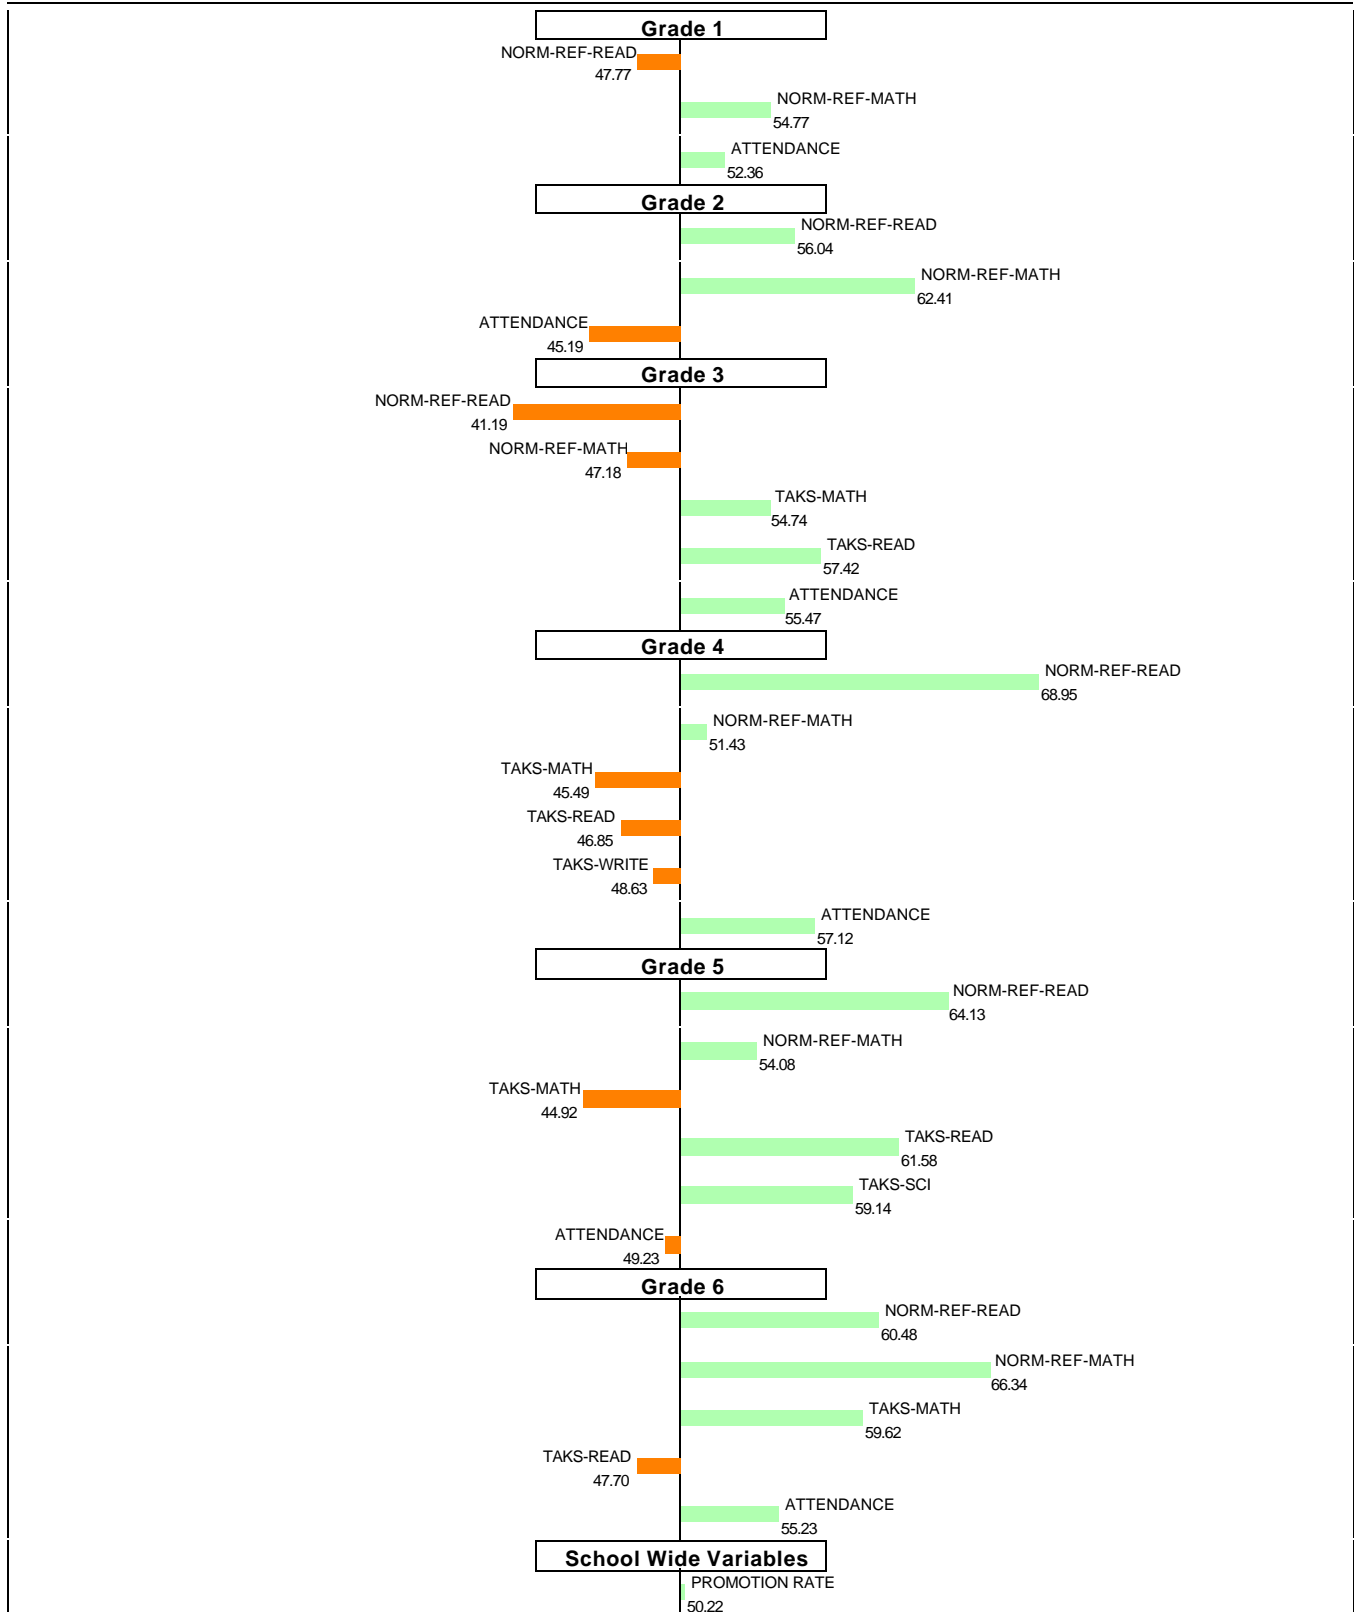

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

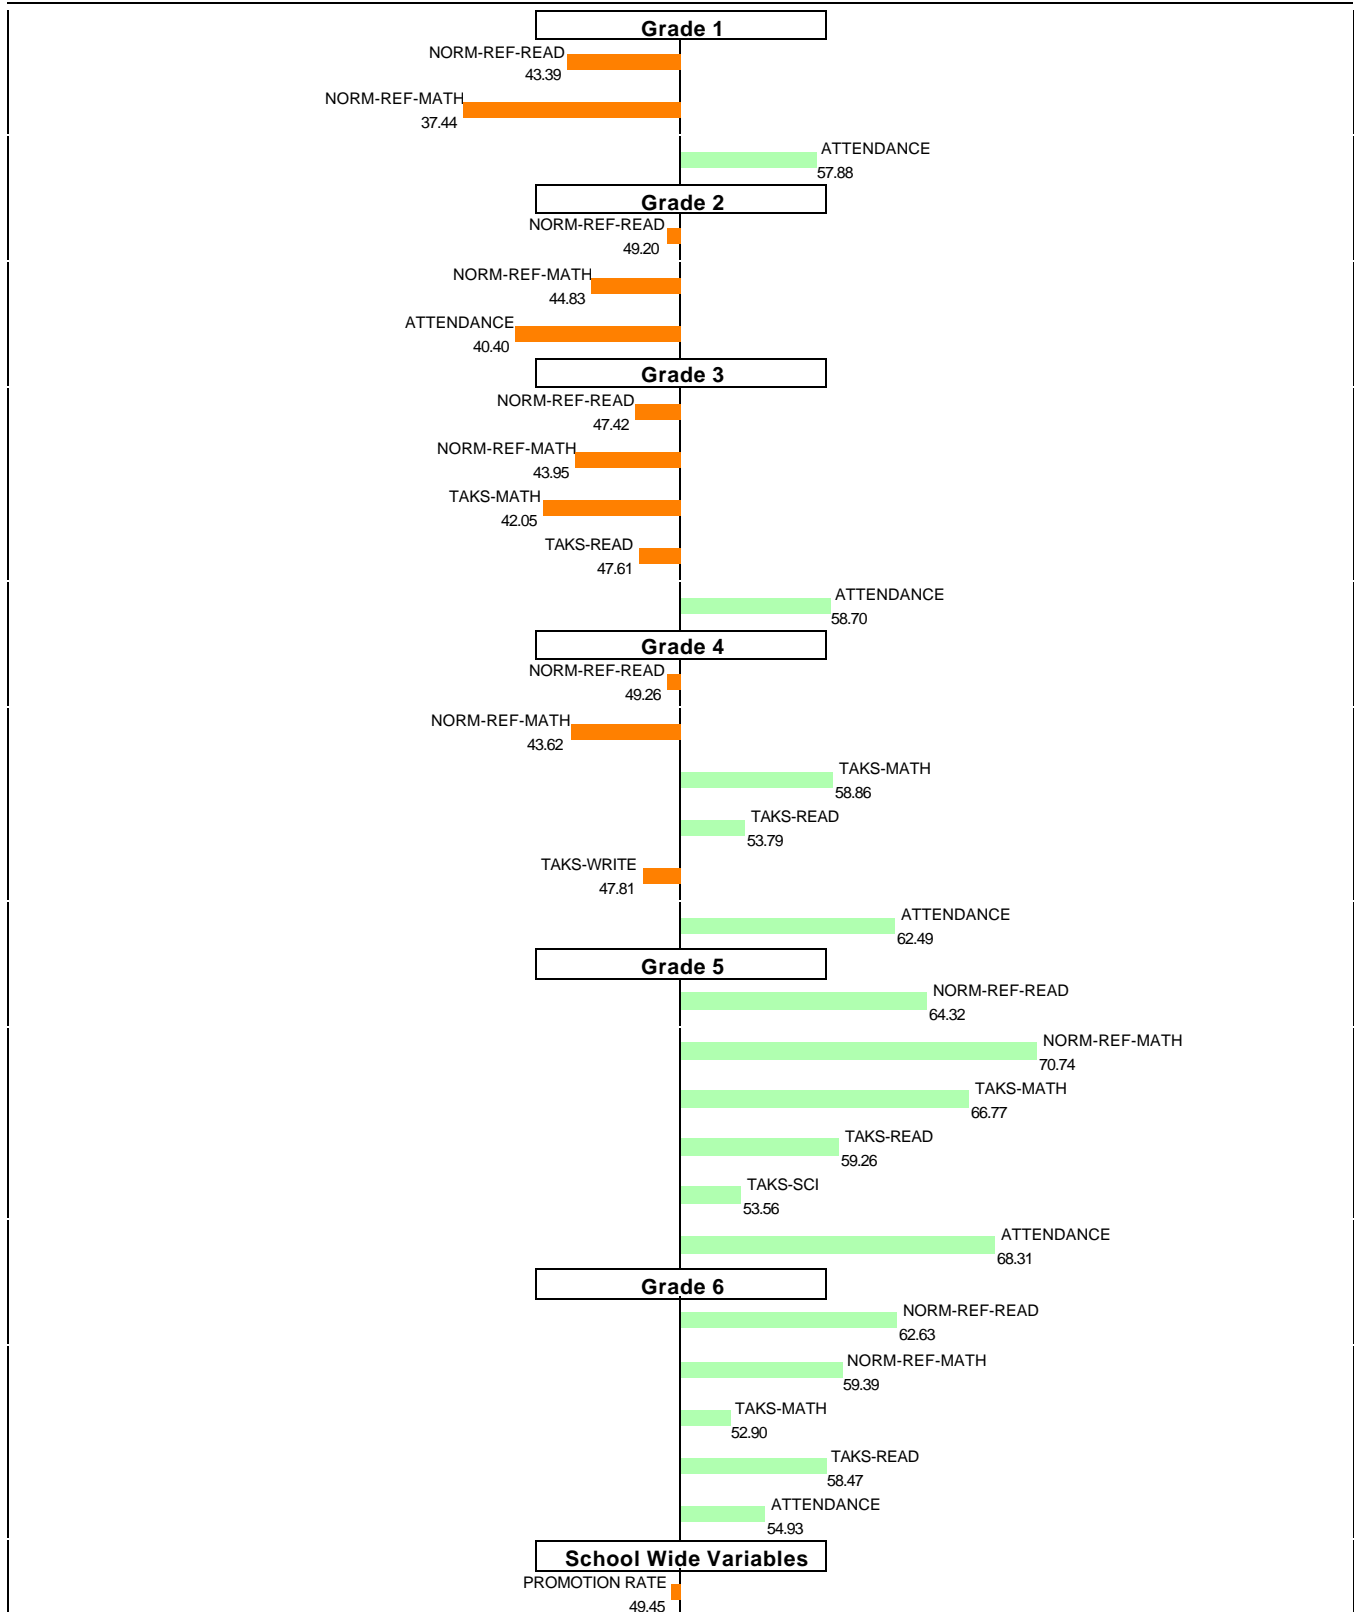

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

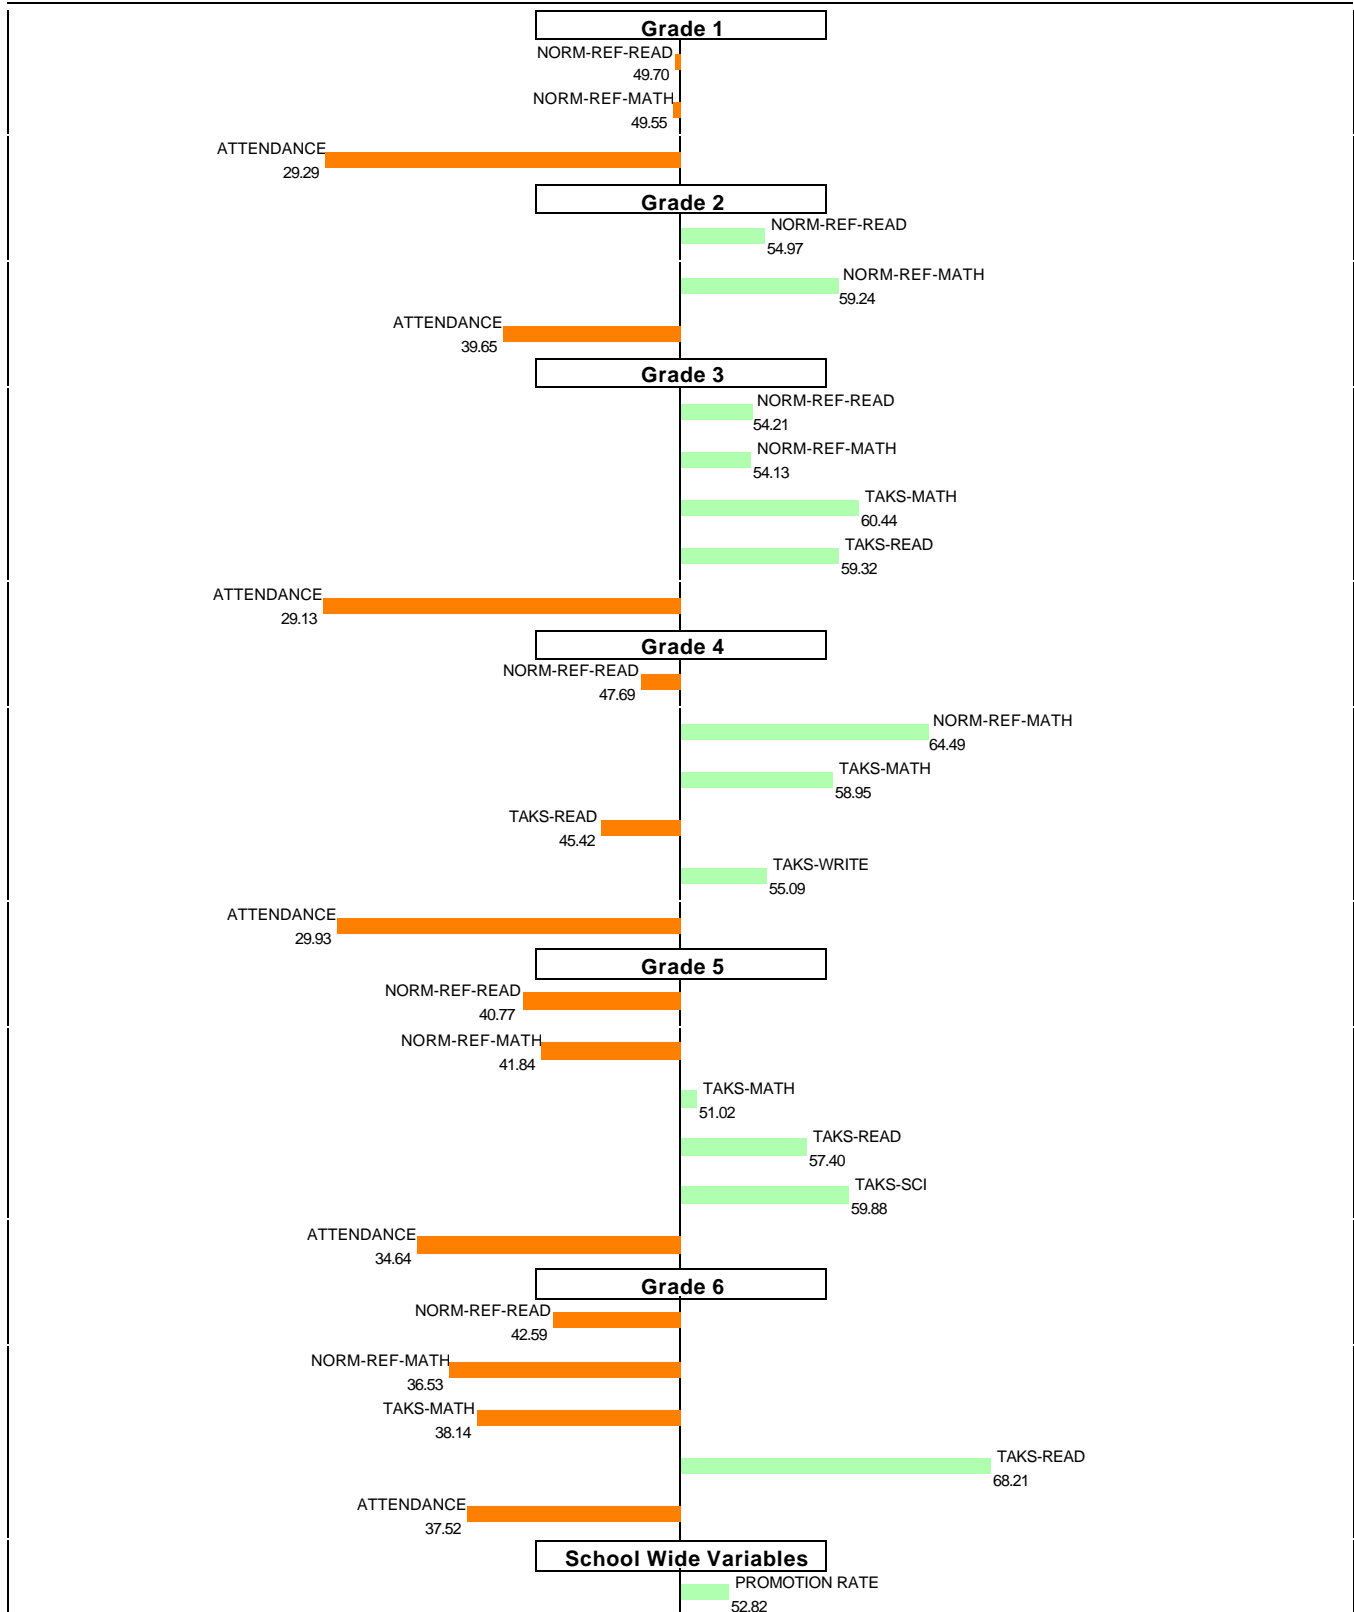

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

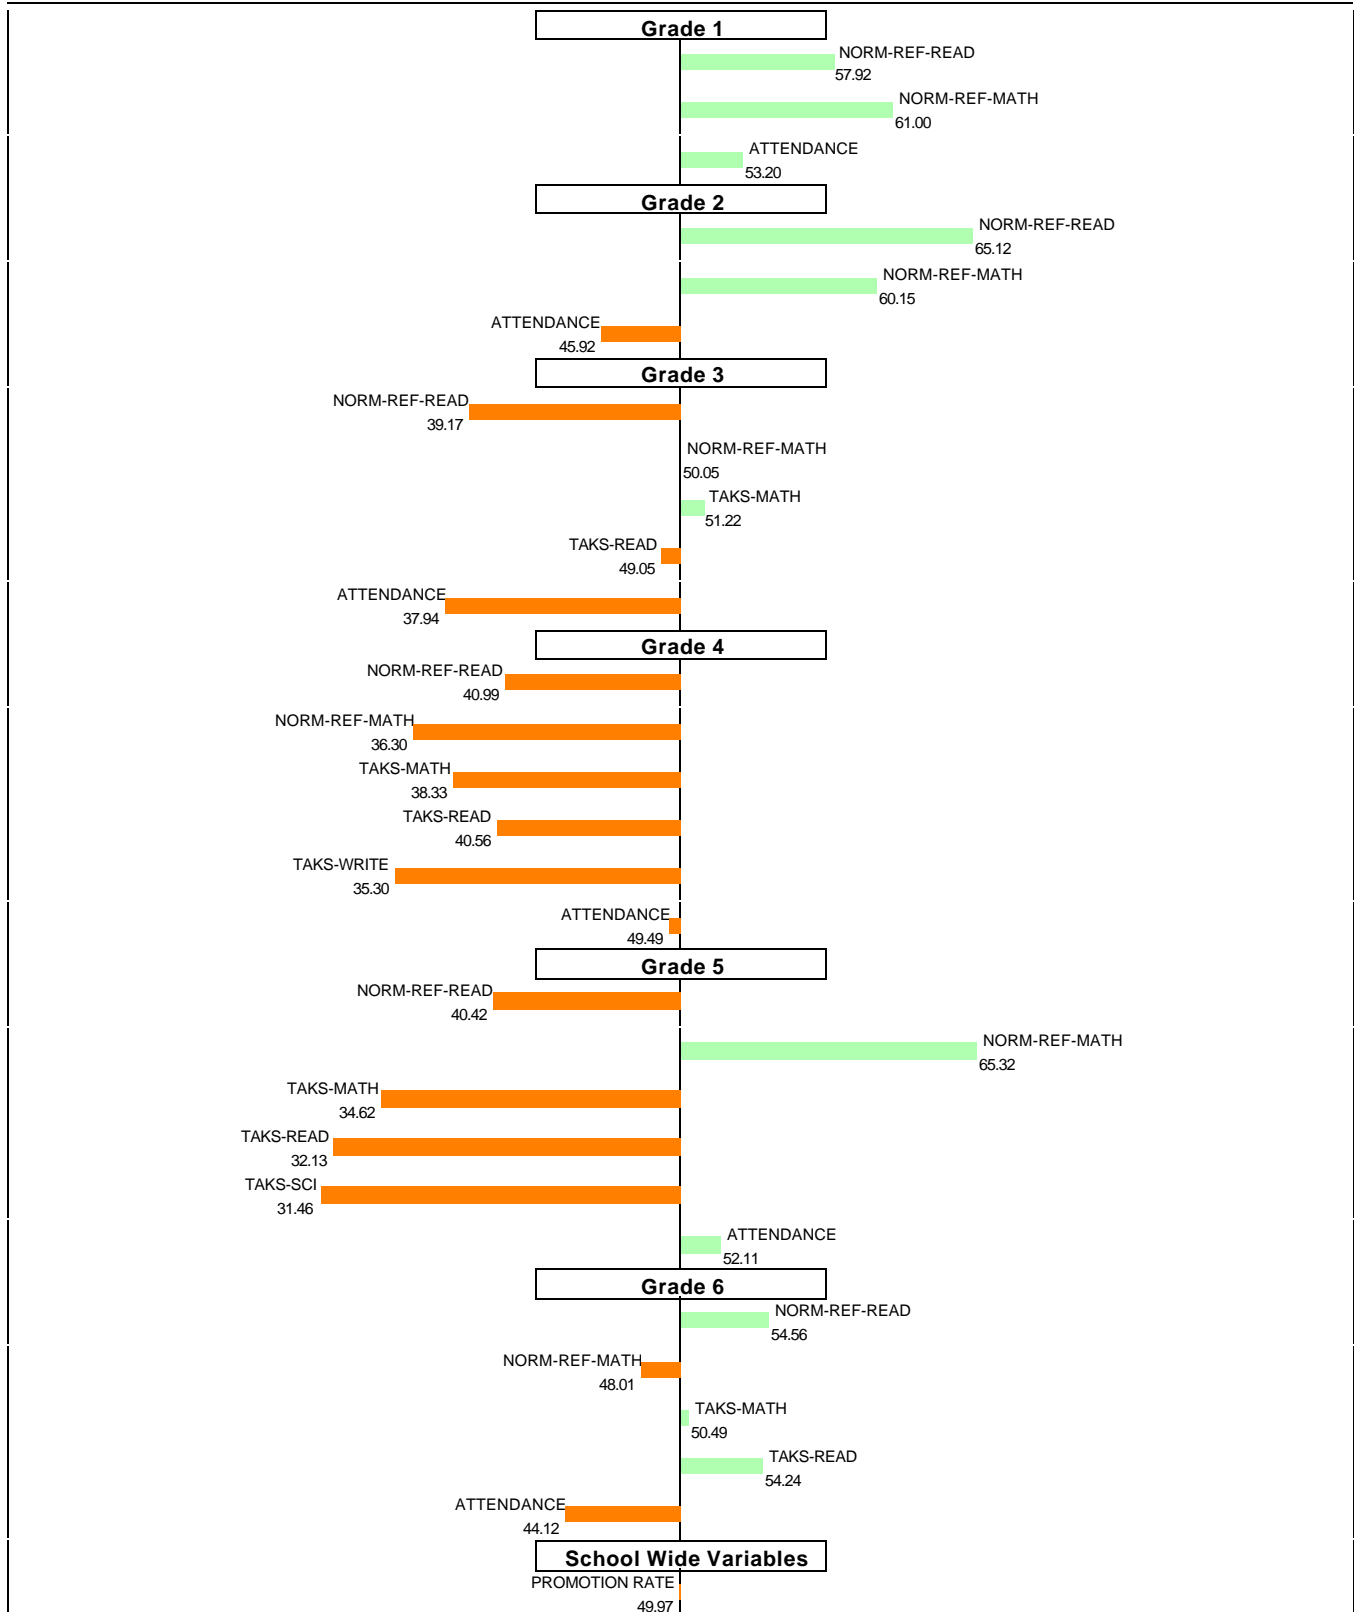

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

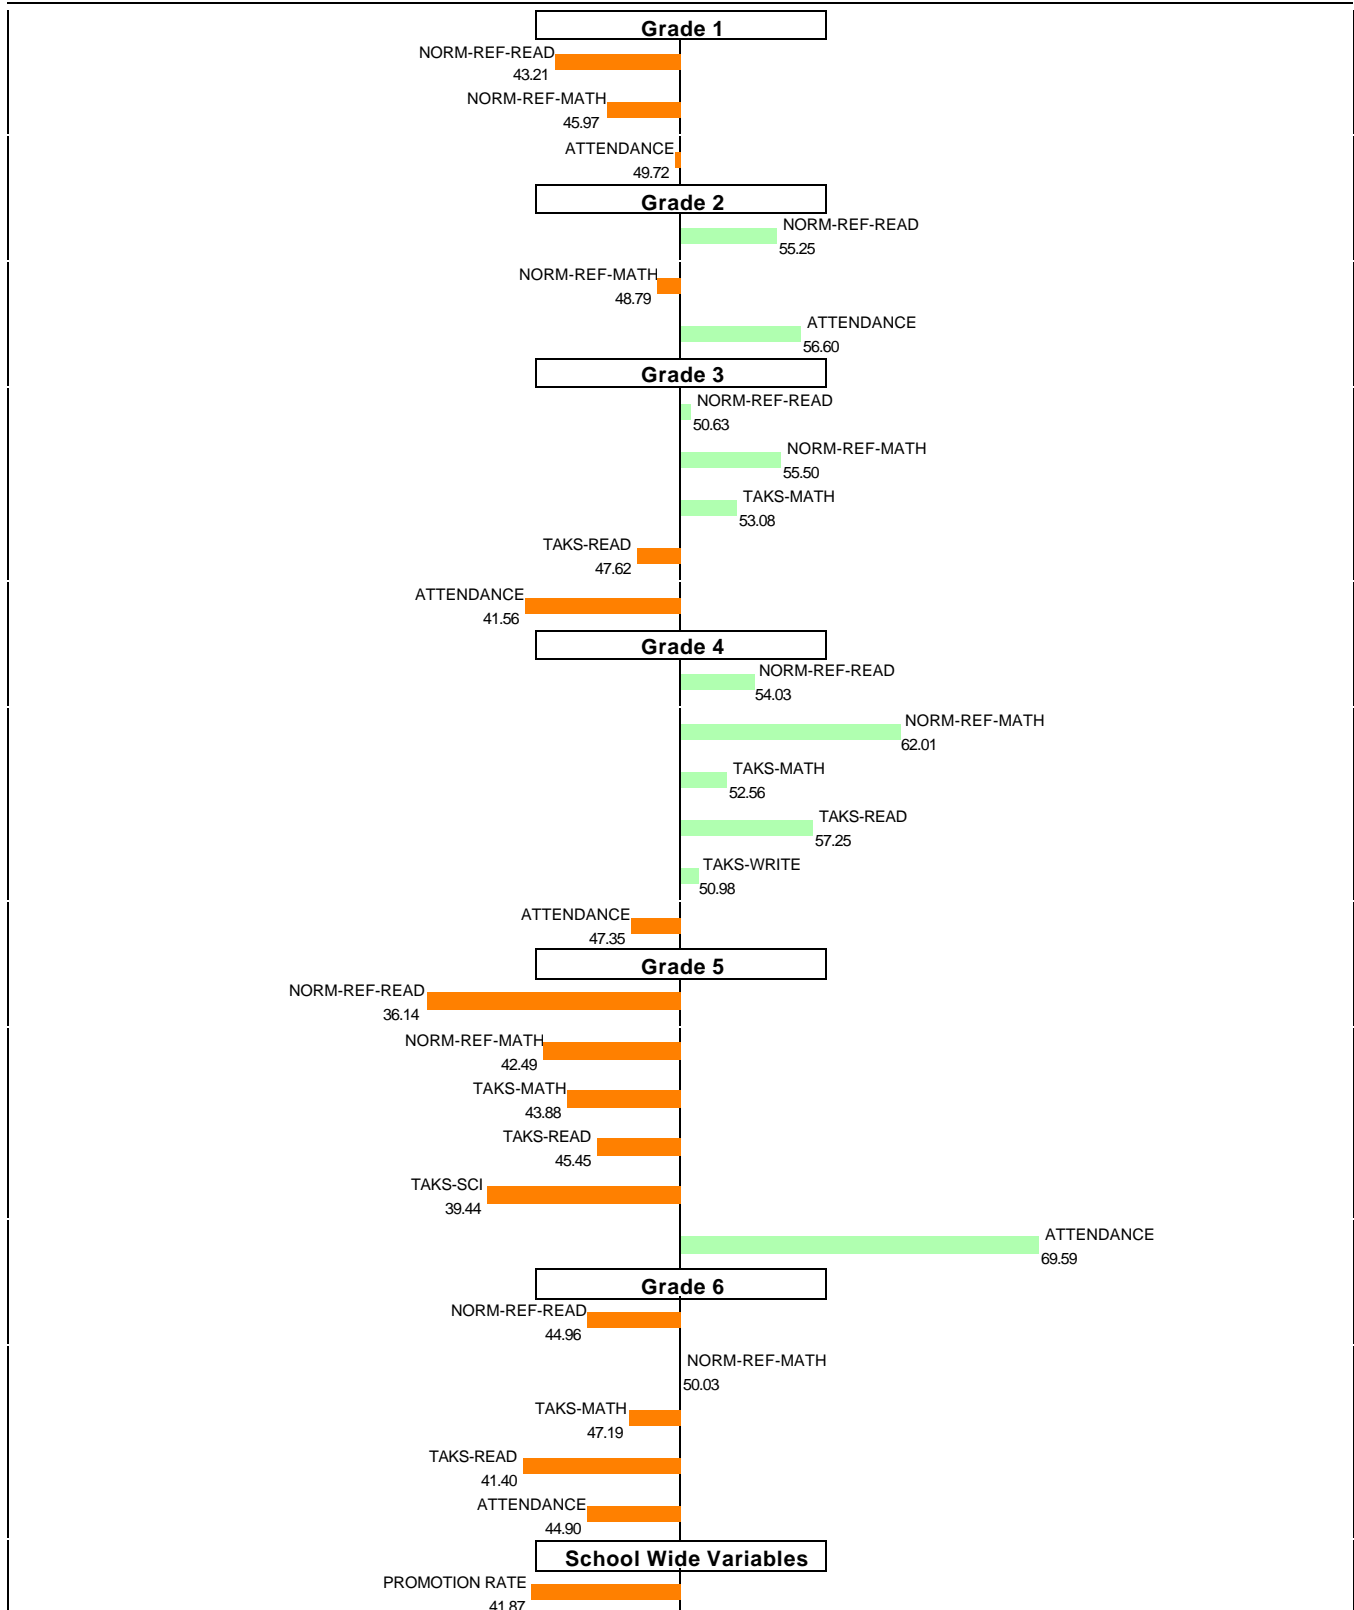

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

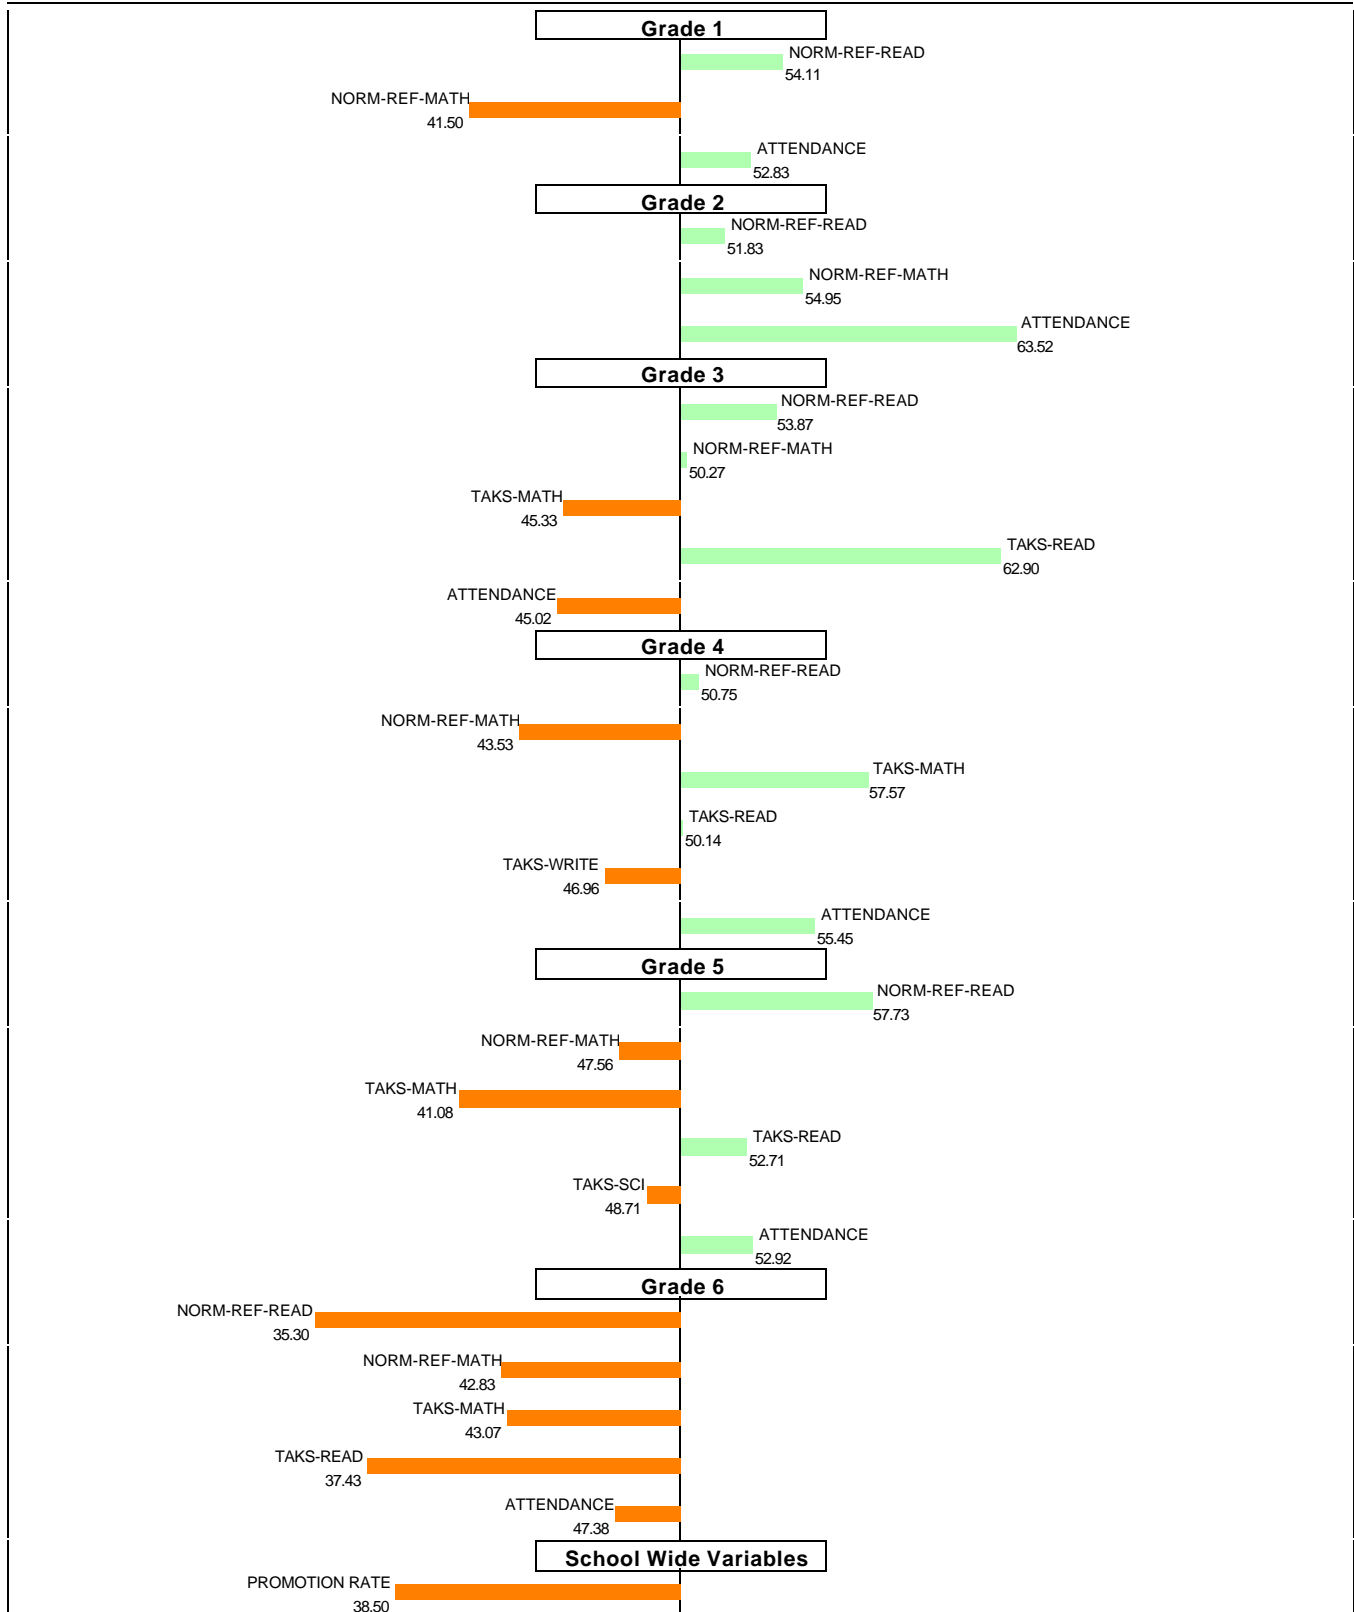

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.

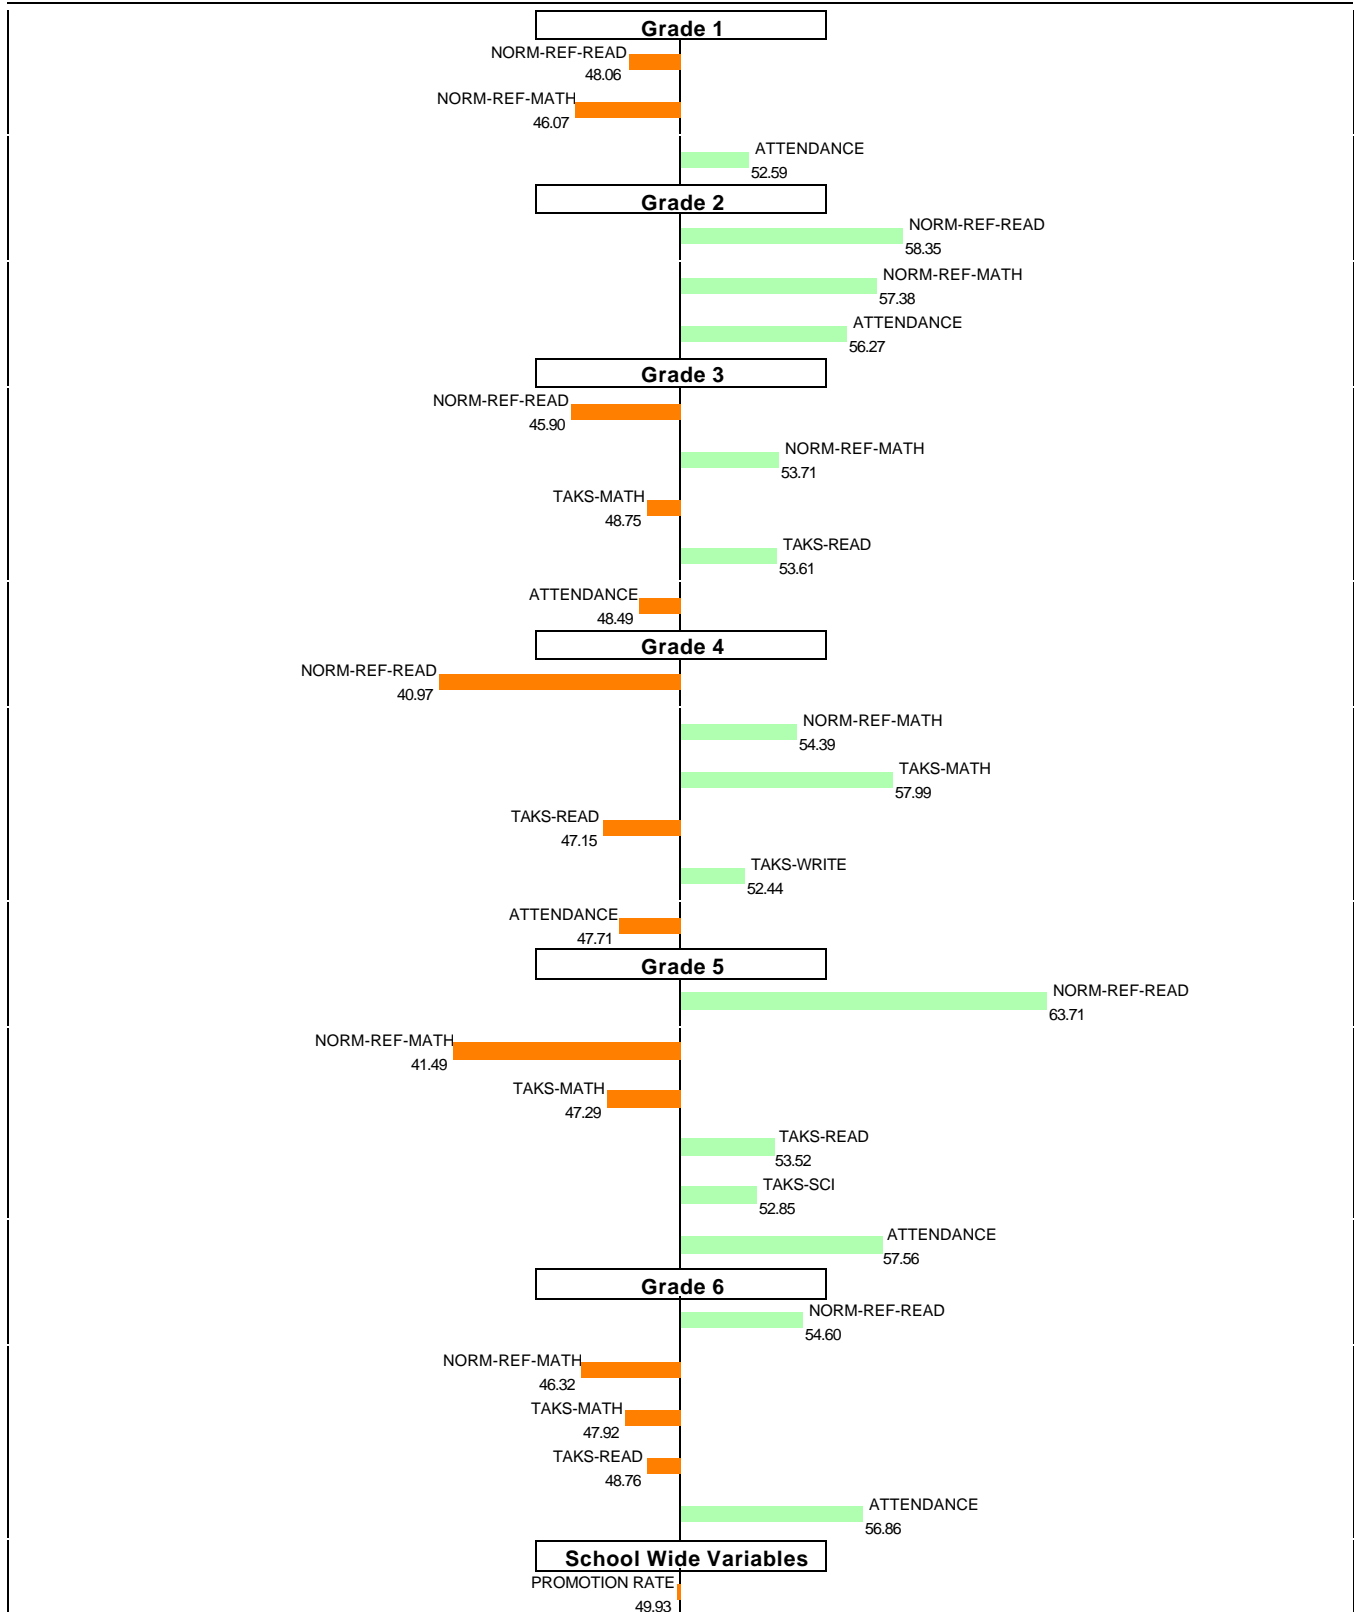

¹ The overall School Effectiveness Index has a mean 50 and a standard deviation of 5. An SEI between 49 and 51 is within average.

¹ Individual Grade and Subject Effectiveness Indices have a mean of 50 and a standard deviation of 10.
