#### 2023-24 School Profile (TEA 104) WILLIAM M. ANDERSON ELEMENTARY SCHOOL

## 2023-24 School Profile Elementary School Metric and Term Definitions

#### Attendance

Attendance						
Student attendance rate	Average of students' attendance rates (number of days in attendance out of number of days enrolled) at end of last school year. The target for elementary schools is 97%.					
Students absent fewer than 10% of days enrolled	An indicator of how many students are in regular attendance. Percentage of students with fewer than 10% absences (excused or unexcused) is based on a snapshot taken at the end of the last school year.					
Enrollment						
Number enrolled by grade (N)	Average daily enrollment at the campus during the last school year.					
Percentage enrolled by grade (% Sch)	Grade-level percentage of total school enrollment at end of last school year.					
Percentage in grade by race/ethnicity (% of Grade)	ercentage of students within grade level identified as African American, Hispanic, white, or other at end of last school year. dentification in a category provided by parents/guardians at registration. Students identified as Hispanic are not counted lsewhere.					
Percentage enrolled by student group	Counts taken at the end of last school year based on data in student information system. Students may be classified in more than one or no student groups.					
Teachers						
Teacher absences	Average number of days not at campus, such as for illness or personal business. Counts do not include vacation days or leave.					
Teachers returning to campus	Percentage of teachers from previous school year who continued at the school. The number of teachers who were at the school in both current and previous years is divided by the number of teachers in the previous year. Teachers from the prior year are not included in the statistic if they changed to non-teaching positions within the district.					
Discipline						
Frequency of disciplinary actions	Disciplinary actions reported to TEA in PEIMS summer submission. Reporting codes by action are in-school suspensions: 6, 26; out-of-school suspensions: 5, 25; alternative placement: 7; explusion: 2, 4.					
Accountability Rating Syste	em for Texas Public Schools					
State accountability rating	Schools receive four scaled scores in three domains (Student Achievement, Student Progress: Academic Growth, Student Progress: Relative Performance, and Closing the Gaps) and a single, overall scaled score across the three domains. The overall score is translated to a letter grade of A, B, C, D, or F. Schools can earn distinctions from the TEA for student achievement in math, reading, science, or social studies; top 25% (among comparable schools) in student progress or in closing performance gaps; and postsecondary readiness. The TEA refreshed the rating system in 2023, making current ratings not comparable to ratings in prior years. For more information on the changes, see https://tea.texas.gov/texas-schools/accountability/academic-accountability/performance-reporting/2023-accountability-rating-system NOTE: The district no longer participates in the Local Accountability System.					
School Effectiveness Index						
SEI	A measure of performance on assessments that is relative to other Dallas ISD schools. The SEI isolates a school's effect on student outcomes by controlling for differences the school cannot control, such as socio-economic status, neighborhood characteristics, and prior-year academic levels. A large change in one year, whether up or down, will typically be followed by a move in the opposite direction. This is expected based on the statistical model used for SEI; it is an example of the concept of "regression to the mean." NOTE: The absence of standardized test scores from 2020 affected creation of SEIs for both 2020 and 2021.					
Campus Climate Survey						
Percentage positive responses	Surveys conducted fall and spring. Positive responses include Agree and Strongly Agree. Other responses included Disagree, Strongly Disagree, and Neutral. Campuses with multiple TEA numbers have results only for the campus as a whole; results are repeated on each profile. Results not available when there were too few respondants.					
Parent Survey						
Percentage positive responses	Survey conducted in spring. Positive responses include Agree and Strongly Agree. Other responses included Disagree, Strongly Disagree, and Neutral. Campuses with multiple TEA numbers have results only for the campus as a whole; results are repeated on each profile. Results not available when there were too few respondants.					
Texas Kindergarten Entry A	Assessment (TX-KEA)					
Percentage meeing kindergarten readiness benchmarks and competencies	Kindergarten readiness as measured using beginning-of-year Texas Kindergarten Entry Assessment, or TX-KEA, scores. Includes results from English and Spanish assessments. The TX-KEA assessment is used to determine whether a student has met specified developmental benchmarks and academic competencies as outlined by the Texas Pre-Kindergarten Guidelines and Texas Essential Knowledge and Skills. Results reported if at least 15 students were assessed.					

## 2023-24 School Profile Elementary School Metric and Term Definitions

MAP Growth	
Percentage at or above the 40th percentile	Percentage of students with scores at or above the 40th percentile using a national norm, meaning the score was at or above approximately 40 percent of all other scores in the U.S. Indicator of grade-level performance. The district administers NWEA's MAP Growth assessment to students in grades 3-9 in various content areas; only the reading (in English and in Spanish) and mathematics subtest results are presented for grades K-2. NOTE: The TerraNova/SUPERA assessment was last administered in Spring 2019. The district began using the MAP Growth assessment for K-2 students in 2020-21.
Percentage at or above the 80th percentile	Percentage of students with scores at or above the 80th percentile using a national norm, meaning the score was at or above approximately 80 percent of all other scores in the U.S. Indicator of advanced performance. Scores above the 80th percentile are a subset of scores above the 40th percentile. NOTE: The TerraNova/SUPERA assessment was last administered in Spring 2019. The district began using the MAP Growth assessment for K-2 students in 2020-21.
State of Texas Assessment	of Academic Readiness (STAAR)
Percentage meeting grade level standard	Percentage of all tests with scores meeting grade level standard. Statistics include results from all STAAR test types. School's statistics based on results from students in the accountability subset. School statistics reported only if at least 25 students tested. District and state statistics are based on grade levels at the campus. Students meeting grade level standard have a high likelihood of success in the next grade or course but may stil need some short-term, targeted acadmic intervention. Grade level standards were reset for the 2023 administration of the STAAR in grades 3-8
Percentage mastering grade level standard	Percentage of all tests with scores demonstrating mastery of grade level standard. Scores are a subset of scores that "meet grade level standard". Students mastering grade level standard are expected to succeed in the next grade or course with little or no academic intervention. Grade level standards were reset for the 2023 administration of the STAAR in grades 3-8
