Part (i): Description of State Accountability System

Part (i)(I) the minimum number of students that the State determines are necessary to be included in each of the subgroups of students for use in the accountability system. The Texas accountability minimum size criteria are 10 assessments or students for the all student group or any subgroup for every indicator.

Part (i)(II) the long-term goals and measurements of interim progress for all students and for each of the subgroups of students

Part (i)(III) the indicators used to meaningfully differentiate all public schools in the State:

a. Academic Achievement Indicator: STAAR Performance Status (Percent at Meets Grade Level or Above)

b. Other Academic Indicator for Non-High Schools: STAAR Growth Status

c. Graduation Rate: Federal Graduation Status

d. ELP Indicator: English Learner Language Proficiency Status

e. School Quality or Student Success (SQSS) Indicators: College, Career, and Military Readiness for High Schools and K-12s; Student Achievement Domain Score: STAAR only for All Other Schools without Annual Graduates

Part (i)(IV) the State's system for meaningfully differentiating all public schools in the State, including -- **(aa)** the specific weight of the indicators in such differentiation

Campus Type	Indicator	Weight
Elementary and Middle Schools	Academic Achievement	30%
	Other Academic Indicator	50%
	English Learner Language Proficiency	10%
	SQSS: Student Achievement Domain Score: STAAR Component Only	10%
High Schools, K-12s, and AEAs	Academic Achievement	50%
	Federal Graduation Status or Academic Growth Status1	10%
	English Learner Language Proficiency	10%
	SQSS: College, Career, and Military Readiness or Student Domain Score: STAAR Component Only2	30%

1 If Federal Graduation Status is not available, Academic Growth Status is used.

2 If College, Career, and Military Readiness is not available, Student Achievement Domain Score: STAAR Component Only is used.

(bb) the methodology by which the State differentiates all such schools. Total points for each component are determined by multiplying the percentage of evaluated indicators met by the corresponding weight and rounding to one decimal place. The Closing the Gaps domain score is the sum of the total points rounded to the nearest whole number and is further used to differentiate all public schools. See the accountability manual for details: Chapter 4-2024 Closing the Gaps Domain

(cc) the methodology by which the State differentiates a school as consistently underperforming for any subgroup of students. Texas uses the Closing the Gaps domain to identify campuses that have consistently under-performing student groups. A student group that misses the targets in at least the same three indicators, for three consecutive years, is considered 'consistently underperforming'. Data from 2022, 2023, and 2024 are considered consecutive years for 2024 Targeted Support and Improvement (TSI) identification. Any campus not identified for Comprehensive Support and Improvement (CSI) that has at least one consistently underperforming student group is identified for TSI. TSI identifies both Title I and non-Title I campuses. Campuses are evaluated annually for TSI identification. See the accountability manual for details: Chapter 10-2024 Identification of Schools for Improvement

(dd) the methodology by which the State identifies a school for comprehensive support and improvement. Texas annually ranks all Title I campuses based on Closing the Gaps scaled scores. First, Texas determines the bottom five percent of Closing the Gaps outcomes by rank ordering the scaled scores of Title I campuses by schooltype - elementary, middle, high school/K-12, and alternative education accountability. Texas then determines which campuses fell in the bottom five percent for each school type. Title I campuses that rank in their school type's bottom five percent are identified for CSI. Additionally, if any Title I or non-Title I campus does not attain a 66.7 percent six-year federal graduation rate for all students group, the campus is identified for CSI. Any Title I campus identified for Additional Targeted Support (ATS) for three consecutive years will be identified for CSI the following school year.

Part (i)(V) the number and names of all public schools in the State identified by the State for comprehensive support and improvement or implementing targeted support and improvement plans. Campuses Identified for Support under the Every Student Succeeds Act (ESSA) for the 2023-2024 school year: Comprehensive Support and Improvement Schools, Targeted Support and Improvement Schools and Additional Targeted Support Schools.

Part (i)(VI) the exit criteria established by the State, including the length of years established. Campuses that do not rank in their school type's bottom five percent of the Closing the Gaps domain for two consecutive years and have Closing the Gaps domain scaled score by the end of the second year that is higher than when originally identified are considered as having successfully exited. Campuses previously identified as CSI based solely on a graduation rate must have a four or six-year federal graduation rate of at least 66.7 percent for two consecutive years to exit CSI status. To exit ATS, the Closing the Gaps score for the consistently underperforming student group must surpass the score used in the year of ATS identification to identify the lowest performing five percent of each school type. A campus identified for TSI because of one consistently underperforming subgroup will exit the TSI status if the subgroup becomes not consistently underperforming subgroup. Consistently underperforming is defined as missing the targets in at least the same three indicators for three consecutive years.

Part (ii): Student Achievement by Proficiency Level

This section provides information on student achievement on the STAAR (State of Texas Assessments of Academic Readiness) performance for mathematics, reading/ELA, and science by grade level and proficiency level for the 2023-24 school year. These results include all students tested, regardless of whether they were in the accountability subset. (CWD: children with disability; CWOD: children without disability; EL: English learner)

Part (iii): Academic Growth and Graduation Rate

Part (iii)(I): Academic Growth

This section provides information on students' academic growth for mathematics and reading/ELA for public elementary schools and secondary schools which don't have a graduation rate, for the 2023-24 school year. These results include all students tested, regardless of whether they were in the accountability subset. (CWD: children with disability; CWOD: children without disability; EL: English learner)
