(N) = students tested. \*Statistics not reported for groups with fewer than six members.

Notes: Includes results for students who first tested (or should have tested) at location (campus, division, district) during spring or summer administrations. Does not include first-time tested in fall unless spring/summer test(s) were different type (L, M) or spring test was coded "A" (absent). If retesting, first administration (spring or summer) location is used. Retest score replaces previous high score only if retest score is higher. IMPORTANT: STATISTICS ARE NOT BASED ON ACCOUNTABILITY SUBSETS USED FOR AEIS. Gains calculated from percentages before rounding. Prior-year statistics may differ from last year's reports if data corrections were made.
